The Johns Hopkins Class of 1956 12
Geographical List 78
Class of 1956 In Memoriam 82
Greetings to the Class of 1956,

And congratulations on the 50th anniversary of your graduation from Johns Hopkins!

Significant anniversaries often prompt us to wonder where the time has gone. Yet we are also amazed at how much has happened in the meantime. Since the Eisenhower era, eight U.S. presidents have come and gone. The Cold War has given way to a new world order. The genetic revolution that Watson and Crick’s 1953 discovery sparked is going full steam. The mainstays of American pop culture that began in the 1950s–fast food, theme parks, and rock and roll–have spread across the globe. And computer technology has evolved from vacuum tubes to transistors to ubiquitous microchips. (Alas, your slide rules are no more!)

Change is nowhere more apparent than on the Homewood Campus, where the number of buildings has doubled since 1956. A large hole next to Garland Hall (to become an underground parking garage) marks the site of the new Decker Quadrangle. Already bounded on the west by Clark Hall, which houses biomedical engineering, and Hodson Hall, with its full complement of technologically-advanced classrooms, the new quad will also boast a computational sciences building on the east and Mason Hall on the south, a visitors center and admissions building. Homewood also has vital new facilities for student life: the Ralph S. O’Connor Recreation Center, the Bunting-Meyerhoff Interfaith Center, and the Martin Center, a venue for the arts and other student activities. The Charles Commons project which is going up east of Charles Street, will become a hub of student life, with a megabookstore, café, and housing for 600 students.

Lest you think Johns Hopkins today is all about buildings, let me be quick to add that it is the students for whom we build. And they are outstanding! These worthy successors of your generation of undergraduates are, however, much more numerous (4,321, to be exact) and nearly half of them are women. Yet the similarities outweigh the differences. Like you, today’s Hopkins students take scholarly pursuits seriously. Virtually all of them engage in serious independent research during their time here, often publishing in scholarly journals or giving papers at conferences. And like you, they will go on to pursue graduate or professional studies and will become leaders in their fields, making us proud.

Thank you for the honor you bring to Johns Hopkins. Thank you for returning to your alma mater again and again. And thank you for setting an ambitious and most generous $1 million goal for the Class of 1956 reunion gift. On behalf of the faculty and students whom you support, let me express how deeply we appreciate all that you do for Johns Hopkins.

I look forward to seeing you during your reunion weekend. Have a wonderful time!

Sincerely,

William R. Brody
Class of 1956,

A very special “thank you” to Paul Abrams and Harry Silverwood, co-chairs of our Homecoming Hullabaloo and their committee, Jim Burnside, Sid Cohen, and Jack Sutherland. As you read through this special 50th Reunion edition of the Class of 1956 Hullabaloo, we think you’ll agree that they did an outstanding job!

Wow—what a wonderful class! As the two of us looked through a draft copy of the 50th Hullabaloo and read the bios that you contributed, we had to be impressed by your accomplishments and almost couldn’t keep back a lump in our throats as we reflected on your memories....

There are a few things that get your attention right away and are almost a recurring theme among many of your bios. Each of you has lived a fulfilling life, both professionally and “out of the office”...you recall fond memories of classmates, professors, staff members, and coaches...you contributed to the service of your country(s) and your communities...you wrote of wives, families, and friends with true emotion and of your warm feelings and gratitude to the Johns Hopkins University. There are so many contributions beyond your chosen fields that it makes one wonder: was our class one of the last of the “good guys”?

Each of you has certainly fulfilled the promise and expectations many of our advisors spoke of when we began our life at Homewood in 1952. Many of you earned advanced degrees, achieving recognition at the highest levels of your chosen fields. Others became leaders in the United States and other countries, willingly serving our countries in peace and war as well as serving on boards of hospitals, universities, government agencies, sports associations, and corporations. You “gave back” to your community and country, devoting much of your time to charitable and worthy causes. And you published: boy, did our class publish! Everything from technical and professional papers and books to coaching publications to military manuals to books on gourmet cooking. It’s enough to perhaps ask the Hopkins University Press to have a special section just for the Class of 1956!

In your spare time you played golf, bridge and tennis, but also ventured into wine, hang gliding, ultra light aircraft, sports car racing, magic, photography, model trains, bone and fly fishing, raised pheasants, peacocks and koi, several became pilots, one judged beauty contests in the U.S. and the Caribbean, and one became a Kentucky Colonel. Who knew that you had those interests when we were undergraduates and most of us thought the only hobby was beer? You traveled—and not just to the usual places like Europe and China, but you included Antarctica, the Galapagos, Uganda, Tanzania, and other places that met your spirit of adventure.

You have recently received your formal invitation to Reunion 2006. Plan to come back and join us—your Committee has worked hard with the University staff to make sure this is “one to remember.”

See you at Homecoming!

Frank Aronhalt
Reunion Co-Chair

Herb Belgrad
Reunion Co-Chair
OUR 50TH COLLEGE REUNION.

We were in our late teens when the journey began and now we're back, in our seventies, to celebrate that journey. It is not only a time to recall the events of 50 years ago, but also a time to reflect on what is happening today.

1952-53

U.S. detonates first hydrogen bomb.

Great Smog kills 4,075 people in London.

First successful surgical separation of Siamese twins.

Jury indicts Hopkins professor Owen Lattimore.

3,300 die of polio in U.S.; 57,000 children are paralyzed. Polio vaccine invented by Dr. Jonas Salk.

“Cheez Whiz” introduced by Kraft Foods.

Nobel Peace Prize: Albert Schweitzer (French Equatorial Africa).

Honor commission convicts 10 engineers of midyear cheating (Newsletter).

(Newsletter Camel’s advertisement) "I started smoking Camels 20 years ago, in my early movie days and smoked 'em ever since..." —John Wayne

Chemical structure of DNA determined.

Joseph Stalin dies.

Chevrolet Corvette introduced as “Poor Man's Supercar.”

Iran and North Korea promote nuclear programs.

U.S. walks out of global warming talks at U.N.; climate talks in Montreal; Kyoto Accord/Clean Air Bill trouble.

New Hopkins medical procedures help extend quality and duration of human life.

Jury indicts Congressman Tom Delay.

CDC experts track polio’s resurgence.

Obesity a growing problem in America; school programs changed to improve diets.

Enron, Tyco, and Adelphia Executives sentenced or awaiting trial; Rep. Cunningham admits to millions in bribes.

John Wayne dies of lung cancer, age 72. Numerous cities and counties ban smoking.

Decoding DNA now holds clues to human diseases.

Vladimir Putin born on October 1, 1952.

Current sales over 10 million copies per month.

Sex in the City garners Emmy, Golden Globe, and Screen Actors Guild Awards.

Ford and GM close assembly plants throughout the U.S. and reduce workforce.
1954

Marilyn Monroe weds Joe DiMaggio.

The first nuclear-powered submarine, the USS Nautilus, is launched.

Lt. Col. Gamal Abdel Nasser is made Premier of Egypt.

American hydrogen bomb test conducted on Bikini Atoll.

Senator Joseph McCarthy begins anti-Communist hearings.

Roger Bannister runs the first four minute mile in 3:59:04.

US Supreme Court in Brown v. Board of Education makes school segregation illegal.

Memphis, Tennessee, WHBQ becomes the first radio station to air an Elvis Presley record.

Maiden flight of Boeing 707, with a maximum of 181 passengers.

First copy of Sports Illustrated. Slugger Eddie Matthews of the Milwaukee Braves on the cover.

Last new episode of the Lone Ranger is aired on radio after 2,956 episodes over 21 years.

CIA aids in overthrow of Iranian government and installation of Shah as ruler.

RCA sells 1st color TV set: 12” screen.

Ellis Island closes.

Lance Armstrong and Cheryl Crow split after 5 month engagement.

Remains of 2 U.S. & 3 Soviet nuclear subs, including reactors, on bottom of Atlantic.

Violence mars Egyptian elections; Riot police block entry to polling stations in some Muslim Brotherhood and opposition strongholds.

Six-nation talks try to end N. Korea's nuclear plans.

Congressional hearings on Katrina Disaster, steroids in sports, American Red Cross, and same-sex marriage.

Hicham El Guerrouj of Morocco runs mile in 3:43.13.

Vietnam: “One of the great winter-sun destinations—it’s rich in culture, has some excellent beaches, great cuisine, friendly people and irresistible shopping.” –NY Times

Controversy swirls around benefits to inner city schools from “No Child Left Behind” Act.

Howard Stern signs 5-year, $500 million contract with Sirius Satellite Radio.

Boeing announces plans for the 747-8, which will carry 450 passengers.

Home run hitters rocked by steroids scandal. McGwire, Sosa, and Palmeiro testify before Congress.

After school TV programs feature family issues lead by Oprah Winfrey and Dr. Phil.

Iran’s involvement in Iraq War, Lebanese politics, re-starting nuclear program, and announces determination to destroy Israel.

Zenith offers 50” widescreen plasma HDTV.

Illegal immigration into U.S. sets record.
1955

Marian Anderson is the first black singer to perform at the Metropolitan Opera in New York City.

Ray Kroc opens the McDonald's fast food chain.

Disneyland opens in California.

JHU launches annual drive for alumni contributions.

New food chef plans for improved menu at Levering and in the dorms.

JHU professor Hans Gatzke recounts observations on changes in divided German scene since war's end.

Margaret Mead, sex authority, lectures at JHU. All male student body attend in droves.

Rosa Parks, Montgomery, Alabama seamstress, refuses to give up her bus seat to a white man and is arrested.

Cook Country Delegate Richard J. Daley wins Chicago mayoral election.

Winston Churchill resigns as Prime Minister of United Kingdom.

Hurricane Diane hits Carolina coast, brings 19 inches of rain to New England.

Hundreds killed in anti-French rioting in Morocco and Algeria.

President Juan Peron of Argentina ousted in military coup.

Prudential Building built in Chicago, at 601 feet, 41 stories, is ranked among world's tallest buildings.

Alexander Calder incorporates auto fin design into his sculpture.

... 50 YEARS LATER

Metropolitan black divas include Jessye Norman, Kathleen Battle, Barbara Hendricks, and Denyce Graves.

Stock investment of $2,250 now worth $2.4 million. Serves 48 million customers daily.

Current operations include theme parks in Florida, Paris, and Tokyo.

Plus c'est la meme chose (nothing changes).

Angela Merkel, leader of the Christian Democrats, sworn in as united Germany's first female Chancellor.

At Shriver Hall, Dr. Ruth Westheimer lecture: "Moving Forward: Confronting Sex Education in America."

Rosa Parks, symbol of Civil Rights movement, dies. Dignitaries among 4,000 at funeral.

Tony Blair supports President Bush's actions in Iraq and sends troops to support Coalition.

Record Hurricane season. Katrina devastates city of New Orleans.

Riots throughout France sparked by French Moslem youths with North African heritage.

Nestor Kirchner of the Partido Justicialista (PJ or Peronists) will serve as president until 2007.

Construction begins on one of the World's tallest buildings, the Wánhao Financial Center in China. This building, due to be completed in 2007, will measure 1171 feet tall.

Guggenheim Museum Exhibit: Robert Mapplethorpe and the Classical Tradition.

1955 Births: John Grisham, Steven Jobs, Bruce Willis, Yo-Yo Ma, Bill Gates.
1956

Elvis Presley enters the music charts for the first time, with "Heartbreak Hotel."

Dr. Grayson Kirk, President of Columbia University, at 80th anniversary convocation of JHU, pleads for better training of government officials.

Morocco declares its independence from France. Spain relinquishes its protectorate in Morocco.

United Kingdom abolishes death penalty for murder.

Actress Grace Kelly marries Prince Rainier III of Monaco.

Senator Hubert Humphrey addresses senior assembly.

Newsletter: Glee Club head says best concert ever.

Nuclear testing in the Pacific Ocean. Bikini Atoll is nearly obliterated by the first airborne explosion of a hydrogen bomb.

Devereux C. Josephs (Chairman of the Board of New York Life) addresses graduation exercise.

Radio Commentator Paul Harvey arrested for trying to break into Argonne National Laboratory, secret government installation.

British diver investigates visiting Soviet cruiser and disappears.

Methodist Church grants women full ordained clergy status.

President Eisenhower authorizes phrase "under God" to the Pledge of Allegiance.

Submarine telephone cable laid across the Atlantic Ocean. Can handle 36 calls at a time and costs $12 for the first 3 minutes.

Fidel Castro and Che Guevara arrive from Mexico to Cuba, by boat, with cadre of 82 men.

Warsaw Pact troops invade Hungary to put down anti-Soviet revolution.

Marilyn Monroe marries American Playwright Arthur Miller.

1986

Ray Charles wins 7 Grammy Awards.

I. Lewis Libby, Assistant to the President of the United States is indicted. President Bush at White House, meeting urges better training of government officials.

192 killed in Madrid train bombing. Six arrested from Morocco, alleged members of Al Qaeda.

U.S. among few industrialized nations with capital punishment.

Prince Rainier dies. Son Albert, Amherst educated, assumes throne.

Senator Eugene McCarthy, Humphrey colleague and political opponent dies.

Mozart's "Don Giovanni" performed at Hippodrome Theatre, Baltimore.

Unmanned drones capable of delivering nuclear bombs; used for monitoring Iran's weapons program.

Recent graduation speakers include Al Gore, Jr., Bill Cosby, and Michael Bloomberg.

Robert Novak, syndicated columnist, says President Bush knows who leaked name of CIA agent Valerie Plame.

Seven-man crew of a trapped Russian mini-submarine rescued by a British Scorpio underwater robot.

Church refuses ordination of homosexuals.

Supreme Court to hear challenge to use of "under God" in the Pledge of Allegiance.

Fiber optic cables have capacities equivalent to over 1 million calls.

Fidel Castro warns life of leftist Venezuelan President Hugo Chavez is in danger. Offers to send help in wake of Hurricane Katrina.

86% of Hungarians vote to join European Union.

Arthur Miller dies at age 89.
We graduated full of hopes, visions and ambitions. We wanted to make a difference. We are proud of our record:

We served in academia as officers, deans, chairs and professors at universities;

We became lawyers and businessmen, founded companies in technology, medicine, engineering, construction, real estate development, and educational publishing;

We started companies domestically and internationally;

We performed research and published in many fields including medicine, technology, and economics;

We hold numerous patents;

We contributed to the Space Program, space vehicles, telescopes, the lunar landing vehicles, and served on selection committees for astronauts;

We contributed to advances in nuclear energy and liquefied natural gas production;

We worked with international committees to advance engineering, chemistry, physics, and biology;

We helped build missile defense systems;

We served in the military in time of war and were recognized for our heroics with the Bronze Star Medal, Oak Leaf Cluster, Distinguished Flying Cross, and the Navy Commendation Medal;

We became members of professional societies and contributed to their expertise;

We were recognized as humanitarians and honored by foreign countries;

We practiced medicine privately and as Chiefs of Staff in far ranging fields such as OB-GYN, radiology, psychiatry, plastic surgery, pediatrics, urology, and neurosurgery;

We started, participated in, and chaired nonprofit organizations dedicated to healing the sick and helping the needy;

We have raised children and grandchildren;

And most of all, We have lived and loved, and left a mark.

We thank you, Johns Hopkins!

Military Experience: U.S. Army, 6 months active duty, 8 years reserve

Spouse: June L. D’Emic
4 Children, 5 Grandchildren

Career Highlights: From 1968-1994, Staff Engineer Scientist for IBM doing design, development, and test of computer systems. Did computer adder design, software maintenance, and teaching for IBM chip design system; 1995-2002, Senior Test Engineer for BDM, TRW doing system test on U.S. Postal POS ONE system and Securities and Exchange Commission Electronic Data Gathering and Retrieval (EDGAR) system.

Awards and Recognition: Received certificate of appreciation for outstanding support to the USPS POS ONE test item.

Activities, hobbies, interests: Amateur Radio call W3SZP; Contract Bridge, and Gardening.

Hopkins Memories: Developing a strong desire to learn. Hopkins was a great learning experience.

HERBERT J. BELGRAD
Nickname: Herb
2304 W. Rogers Avenue
Baltimore, MD 21209
410-367-4713
hbelgrad@tydingslaw.com

JHU Degrees: BA in Psychology
Other Degrees: MA in Psychology from University of Illinois; JD from University of Maryland School of Law

Military Experience: US Army—6 months, 6 years Reserves

Spouse: Joanne Lott
3 Children, 6 Grandchildren

Career Highlights: Following graduation from Hopkins, I pursued a degree in psychology at the University of Illinois as a University Fellow. I returned to Maryland to attend the University of Maryland Law School and received my J.D. degree in 1961 and was elected to Law Review and Order of the Coif. I began my legal career as a Special Assistant City Solicitor–Labor and Education—and following the 1968 riots was appointed by the mayor to head the Baltimore Committee for the Administration of Justice under Emergency Conditions. I have been in private practice in the same firm since 1968 and continue as a senior partner at Tydings & Rosenberg, LLP, in Baltimore, specializing in Family and Employment law. I served in the Army for six months in 1957-1958 and then six years in the reserves.

Awards & Recognitions: My professional life has extended beyond the office practice of law to bar association activities. I have served as President of the Junior Bar Association of Baltimore City (1968-70), President of the Bar Association of Baltimore City (1981-82), President of the Maryland State Bar Association (1985-86) and on the Board of Governors of the American Bar Association.

Public Service Contributions: I have been fortunate to have had the opportunity to serve my community in various capacities, primarily due to the encouragement and support of my law firm. I was appointed the first chairman of the Maryland Stadium Authority by Governor Harry Hughes and reappointed by Governor William Donald Schaefer, serving from 1986-95. In that capacity, I was responsible for site selection, construction and management of Oriole Park at Camden Yards and led the effort to return the NFL to Baltimore representing Baltimore at the NFL owners' meetings for nine years. My work with the Stadium Authority was personally and professionally my most rewarding and satisfying experience.

Prior to serving the MSA, I served as the first chairman of the Maryland State Ethics Commission (1979-86), also appointed by Governor Hughes. Other community activities included the Maryland Legal Services Corporation where I chaired the Board (1986-89); the Legal Mutual Insurance Society where I was the first Chairman of the Board (1986-89) and still continue to serve on the Board of Directors; the Judicial Nominating Commission; the Attorney Grievance Commission of Maryland; and the Greater Baltimore Medical Center where I currently serve as Vice-Chairman of the Board. I have also served on the Boards of Sinai Hospital (1985-88), and the Associated Jewish Charities and Welfare Fund (1967-91) and as President of the Board of Jewish Education (1975-76).

Activities, hobbies, interests: I was married to Joanne Lott in 1958, and we are the proud parents of Steve, Susie, and Leslie; each of whom have two children. Though we have traveled extensively as a family over the years, our favorite vacations these days are visiting children and grandchildren in Boston; Düsseldorf, Germany; State College, Pennsylvania and Breckenridge, Colorado.

Hopkins Memories: I have maintained my association with Hopkins over the years by serving as class agent since graduation and chairing or co-chairing our reunions. This has given me the opportunity to remain in touch with classmates, and I look forward to our milestone reunion to renew old friendships and play catch-up over the past 50 years.
ROLF H. BENZINGER

Nickname: Hans
1900 Broadway, Apartment 2
San Francisco, CA 94109

JHU Degrees: BS in Physics

Other Degrees: Master of Arts in Astronomy from California Institute of Technology; PhD in Physics from Stevens Institute of Technology in New Jersey

Spouse: Violet Steiner
2 Children, 10 Grandchildren

Career Highlights: Associate professor of physics and astronomy at Fairleigh Dickinson University in New Jersey. Assistant professor of physics at University of Northern Iowa in Cedar Falls, Iowa for 1-1/2 years. Along with Dr. Gervasie M. Schreckenberg studied what happened to the brain tissue of mice when exposed to dissonant music as opposed to more harmonic sounds such as certain classical music, 1987. Coordinator of lecture, "Science and the Human Imagination: Einstein" at the Fairleigh Dickinson University Rutherford Campus—1975.

Awards & Recognitions: Mensa Membership—1964; Twenty-Five Year Award for Dedicated Service to Fairleigh Dickinson University—1987.
Publications: Research on the “Neural Plasticity of MUS musculus in Response to Disharmonic Sound” was published in the Fall 1987 issue of the Bulletin of the New Jersey Academy of Science; Numerous articles published in newspapers on how extended exposure to certain types of music may affect a person’s memory and learning ability.

Public Service Contributions: An exhibition of photographs and prints “Comets in Art and History” at the Florham-Madison Fairleigh Dickinson University Campus Library in New Jersey and the Livingston Public Library in Livingston, Montana; Lecture on “Apparition of Comet Haley” followed by viewing the comet through a telescope at the Morris Museum at Morristown, New Jersey; Presentations to science classes at State Prison, Rahway, New Jersey—1983.

Activities, hobbies, interests: Photography, in particular, photographing the sunrise and sunset at Point Barrow, Alaska; eclipse of the sun at Bar Harbor, Maine; and eclipse of the sun at Mauritania, Africa; Building a retirement log cabin in the Gallatin Mountains at 6000 feet elevation near Emigrant, Montana; Enjoying being an astronomer.

Hopkins Memories: Member of the Ham Radio Club, which was a very enjoyable experience at Johns Hopkins. Recently, I had a visit in our Ohio home with Jim Hockenberry (1956) and his wife Betty.

Peter M. Bower

JHU Degrees: BES in Industrial Engineering

Spouse: Phyllis (Pat) Anne Taylor
3 Children, 5 Grandchildren

Career Highlights: I worked as a manufacturing engineer and engineering manager for 45 years. Immediately after graduation, I joined the Boeing Co. in Seattle, Washington, working in their Missiles Division. Assignments included setting up production lines to build components for the BOMARC and Minuteman Missiles. Then I was transferred to the Boeing Aerospace Division in New Orleans, setting up production lines to manufacture first stage booster parts for the Saturn V Program. I then transferred to Huntsville, AL to work on the Saturn V Dynamic Test Program as manufacturing site manager. While there, I also helped develop the Boeing designed Lunar Rover Vehicle concept and direct manufacture of the first demonstration models. I returned to Maryland in 1972, joining Black & Decker at their Hampstead, MD Facility. My group of production engineers advised design engineers on new products to make them manufacturing friendly while reducing product cost. Then we planned the production lines and prepared capital requirements to manufacture the new product. In 1985, it was back to military hardware production planning for AAI Corporation, MRC Corporation, and finally United Defense, York, PA. In each corporation, I directed advance manufacturing engineering efforts on new products during their design and early manufacturing phases. I retired in 2001.

Activities, hobbies, interests: Retirement has given me time for singing, photography, model railroading, and some travel.

joseph.donohue@verizon.net

JHU Degrees: BA in English
Other Degrees: MA from Georgetown University; PhD from Princeton University

Military Experience: ROTC Commission, active duty 1957, 1962 (Berlin Conflict)

3 Children (1 deceased), 2 Grandchildren
Career Highlights: Taught at Princeton for five years (1966-71) and then at University of Massachusetts, Amherst (1971-2005); after which, I retired. Became a theatre historian, rose to presidency of American Society for Theatre Research (1979-1984).

Awards & Recognitions: American Society for Theatre Research Distinguished Scholar Award (1998); Barnard Hewitt Award, twice for Theatre in the Age of Kean and Oscar Wilde's The Importance of Being Earnest (1996); Modern Language Association Distinguished Scholarly Edition award for Oscar Wilde's The Importance of Being Earnest (1997).

Publications: Dramatic Character in the English Romantic Age (Princeton, 1970); Theatre in the Age of Kean (1975); Oscar Wilde's The Importance of Being Earnest: A Reconstructive Edition (1995); Cambridge History of British Theatre, 1660-1895 (2004); Fantasies of Empire (2005); Other publications include scholarly articles on British and Irish drama and theatre.

Public Service Contributions: President, Friends of Forbes Library (public library in Northampton, MA); Board member, New Century Theatre (Northampton, MA).

Activities, hobbies, interests: Much travel to England and most especially London (constant theatre-going over decades) and other parts of Europe–France, Spain, Italy, Switzerland, Germany, Russia, Poland, Sweden, Norway, Scotland, Ireland, and Canada. Other hobbies and interests include photography and gardening.

Hopkins Memories: Years after I studied with Professor J. Hills Miller, I ran into him in the British Library, got up my courage, and asked him out for coffee; a wonderful conversation about teaching and literary criticism followed. I remember happy times singing with the Hopkins Glec Club and in a quartet organized by Oz Steinwald. I won the Barnstormers’ Playwriting Contest as a freshman, with an adaptation of a science fiction story by Ray Bradbury. As a junior, I wrote the music for a musical (libretto by Peter Fischer, ’56) called Quiet Down! I graduated in 3-1/2 years in order to push on to graduate school in theatre, but ended up with advanced degrees in English. For years I have been a theatre historian “embedded” in an English department. I retired last May in order to get on with some of my scholarly projects. I can’t die for a long time—there are too many unfinished things to do.

**JHU Degrees:** BES in Industrial Engineering

**Military Experience:** 3-1/2 years in Army
Artillery/Ordinance–Nike and Redstone missiles

**Spouse:** Kay McDougal

**Career Highlights:** 8 years with aerospace contractors, 22 years with NASA, and 4 years as a consultant; Being one of the NASA team leaders of the team that saved the Skylab mission after Skylab lost its meteoroid shield on launch. The shield was required for thermal control as well as meteoroid protection. We developed the idea of a sail as a heat shield that could be carried in available space in the Command Module but extend 40 feet down the side of Skylab, be deployed by space-suited astronauts and last in the space environment for one year. We built a prototype, tested the prototype, made changes and demonstrated its capability to be deployed safely in the Neutral Buoyancy Facility at Marshall Center, built the flight hardware and trained the crew for its deployment, all in the 8 days between Skylab launch and the first crew launch; A leader in the development of water immersion as a simulation of weightlessness. This technique is now used worldwide in the development of and training for all spacecraft extravehicular activity. Our work established the feasibility of on-orbit assembly and maintenance and paved the way for the repair of the Hubble Telescope and the assembly of the International Space Station; Prepared the initial draft of the EVA Maintenance Criteria for the Hubble Telescope Program and led the development of the EVA maintenance equipment and tools for that program; NASA coordinator to the European Space Agency for Crew Station Design for the Spacelab Program, a joint NASA/ESA program; Selected by NASA to be backup crewman for the Ben Franklin research submarine on the Gulf Stream Drift Mission and to be the Habitat Engineer for Mission 8-50 of the Tektitte Underwater Habitat Program, two oceanographic programs that NASA joined to obtain first hand information for use in designing the Skylab Space Station; Consultant to the European Space Agency and the German Space Agency.

**Awards & Recognitions:** Skylab Twin Pole Sail Development Award; NASA Outstanding Performance Award.

**Public Service Contributions:** Work with Habitat for Humanity in summers, nailing and painting.

**Activities, hobbies, interests:** Flying–commercial pilot, flight instructor, multiengine, instrument and glider ratings; Hang gliding–18 years active flying, US representative to the FAI for hang gliding for 11 years, Former President of the United States Hang Gliding Association; Sports car racing–SCCA Southeastern Division H Modified Champion, 1962, raced for 8 years; Skiing–
member, professional ski instructor of America for 38 years, presently teaching at Snowbird, UT.

**Hopkins Memories:** Playing pickup lacrosse in front of the dorm.

**JHU Degrees:** BS in Chemical Engineering

**Military Experience:** US Army, 6 months active duty, 8 years reserves

Spouse: Janet Marie Windt
5 Children, 7 Grandchildren

**Career Highlights:** For 20 years after graduation, I worked with my father and his two partners in the engineering and construction business. In 1981, I started my own business and continued working in the engineering and construction business. My work took me all over the world, but mostly in Colombia and Peru.

**Activities, hobbies, interests:** My activities over the years since graduating from JHU have included diving in the Bahamas and Florida; tennis and water skiing in Lakeland, FL; sightseeing in Mexico and Canada; hiking in Colorado and the Appalachians; trips abroad with my wife; canoeing in North Carolina and Virginia; and visiting wineries with my wife.

**Hopkins Memories:** I lived on a farm in Finksburg, MD while I attended JHU. Maybe some of my friends remember my Willy’s Jeep with El Gaucho Farms painted on the door. My best friend in college and best man at my wedding after graduation in 1956 was Don Clemons. Recently, Don and his wife Gisela came to visit us in North Carolina, and we relived old memories of JHU.

JHU Degrees: BA in Biological Sciences
Other Degrees: BS from University of California, MS from Arizona State

Spouse: Judy Hubbard
3 Children, 6 Grandchildren

Career Highlights: Upon graduating from Johns Hopkins, I worked as a radiation safety engineer at the University of California laboratory, while obtaining a degree in mechanical engineering with honors. For the next 32 years, I worked first as an engineer, then as a manager, for what is now Honeywell. Initially, I worked on space projects, and then transitioned to aerospace programs primarily involving gas turbines. Responsible for establishing a joint program to develop a propulsion gas turbine for fighter aircraft with Taiwan, and led a multinational team in Germany that developed an auxiliary gas turbine for the Eurofighter.

Awards & Recognitions: Pi Tau Sigma; Tau Beta Pi.

Public Service Contributions: Coordinated efforts of American Churches in building small homes for the poor in Puerto Penasco, Mexico with Amor Ministries. Later ran the annual Elks Christmas Giving for the poor in Grand County, Utah.

Activities, hobbies, interests: Travel to foreign countries, hiking, boating.

Hopkins Memories: Homecoming parade in 1956, where my bride was the ATO Fraternity sweetheart: the float placed over Ed Unger's car disintegrated at the very start. On another occasion, a fraternity brother, Dick Lane, fell from the house rear porch. Our future doctors in the fraternity placed his leg in a splint and drove him in an open convertible to emergency. He left there with a broken arm.

Career Highlights: Bringing Koç Holding to the Fortune 500 as Chairman of Koç Holding (now Honorary Chairman); President of the International Chamber of Commerce; Member of JP Morgan International Council; Member of Allianz Aktiengesellschaft International Advisory Board; Member of International Advisory Board of Council on Foreign Relations; President of Advisory Board of Turkish Industrialists' and Businessmen's Association.

Awards & Recognitions: Turkish President's "Outstanding Service Award"; The German Government's "Grosses Verdienst Kreuz"; The Italian Government's "Grande Ufficiale".

Public Service Contributions: Founding Member of Vehbi Koç Foundation; Purchase of the American and Italian Hospitals in Istanbul; Founder of Koç University; Founder of Koç High School; Founder of Rahmi M. Koç Museum, Istanbul; Founder of the Turkish Marine Environment Protection Agency (Turnepa).

Activities, hobbies, interests: Sailing, skiing, swimming, collecting, classic music, and antiques hunting.

Hopkins Memories: Once I was invited to a Sunday lunch at home with a schoolmate. When I arrived I was very hungry and my friend was still out, but his father invited me in and the table was set and lunch was ready. My friend's father then asked me if I was hungry. Well, in Turkish culture, it is not acceptable to admit that you are hungry, even if asked directly, so I politely informed the father that I was not hungry—as my upbringing demanded. The difference is that in Turkey they will take you by the arm and insist that you eat, even if you are genuinely not hungry. However, I soon discovered that things were a little different in the US, as I sat and watched the family devour a delicious lunch, whilst I merely looked on longingly as they believed me when I said I really didn't want anything to eat. Christmas had arrived in my first year at JHU, but my allowance check didn't, it had been held up in the banking system by some delay, probably due to the holidays. So I was just about broke and virtually no cash and hadn't been invited anywhere either, so I was in a tricky situation. All the restaurants and nearly all the bars were shut down on Christmas Eve in those days, so there I was on my own. Finally I came up on a drug store, just as they were closing and managed to persuade them to give me a sandwich. I then went back to the dorm, ate my sandwich and spent the night there by myself. I'll never forget that Christmas, not that we celebrate Christmas in Turkey, but I certainly felt lonely on that one.

wlenzjr@yahoo.com

JHU Degrees: BES in Industrial Engineering
Other Degrees: MBA from University of Baltimore

Spouse: Carolyn Ripple
6 Children, 12 Grandchildren

Career Highlights: 43 and half years with the late Bethlehem Steel Corporation at Sparrows Point in the Operations Analysis Department.

Awards & Recognitions: Recognized by several numismatic associations, societies, and publications for my contributions to the hobby.

Public Service Contributions: Loaned executive for United Way. For many years, General Chairman of the MD State Numismatic Association's year convention and coin show; General Chairman of the National American Numismatic Association Annual Convention in Baltimore in 1993, Assistant Chairman in 1985.

Activities, hobbies, interests: Grandchildren, numismatics, fishing and Ocean City. Enjoy traveling now that I am retired.

Hopkins Memories: Most memories were not pleasant. The great exception is the late Dean Robert Roy—a great educator, as well as a down to earth gentleman who cared about the students.

JHU Degrees: BES, MS in Chemical Engineering

Spouse: Patricia June Allman
6 Children, 19 Grandchildren

Awards & Recognitions: Honor Societies: Tau Beta Pi (engineering), Sigma Xi (research), Phi Lambda Upsilon (chemistry); Who’s Who in America/Who’s Who in the World/Who’s Who in Engineering/Who’s Who in Technology; American Men & Women of Science NY Academy of Sciences.

Publications: Author and co-author of 51 publications and invited presentations covering energy/environmental issues; combustion, condensation, catalysis, electrochemistry; and petroleum and coal science, processes, and products.

Public Service Contributions: Advisory Boards for Whiting School of Engineering, Johns Hopkins; Chemistry/Chemical Engineering, California Institute of Technology; and Global Climate Change, Massachusetts Institute of Technology.

Activities, hobbies, interests: History, art, painting, music appreciation, and international travel.

Hopkins Memories: Football—1951, 1953, assistant coach; Lacrosse—coaching staff assistant (1957-1974). During which, JHU won or shared 7 National Championships.

RICHARD I. LIDZ

30 Pierson Avenue
Princeton, NJ 08540
609-987-8464
dicklid2@aol.com

JHU Degrees: BA in Human Geography

Spouse: Celia Usak
3 Children, 5 Grandchildren

Publications: Many Kinds of Courage (Putnam Publishing); Voices of WWII; Black Diamonds, Grassroots (audio products); Career Information Center, editions 1-3 (editor, Macmillan).

Public Service Contributions: JHU—National Advisory Council Member; Darrow School—Board of Trustees; West Windsor library—Board Member; Princeton Opera Festival—Board Member.

Activities, hobbies, interests: Travel, including Africa (twice), China, Turkey, Russia, Scandinavia, Portugal, Spain, Italy, France, Morocco, and Mexico (multiple times). Salmon fishing in British Columbia; collecting Pacific Northwest Indian art; lacrosse; and grandchildren.

Hopkins Memories: Owen Lattimore Defense Fund. Editing the Newsletter. The dinner group ("Gourmet Group") my Hopkins friends and I formed 50 years ago continues to meet 3 times each year.

JHU Degrees: BA in Biology
Other Degrees: MD from NYU School of Medicine

Spouse: Shoshanna Lane
2 sons, 2 step-daughters, 4 biological grandchildren, 7 step-grandchildren, 3 adopted grandchildren

Career Highlights: Sheppard-Pratt Hospital from 1968 to 1981. Planned and developed a community mental health center. Director of Admissions, College Program Chairman; Psychoanalytic training—graduated in 1977; Full time private practice—adults and geriatrics, since 1981; While in U.S.P.H.S. (1966-1968), I served on committees in the Surgeon General’s office, in the Secretary of Health, Education and Welfare, and then at the White House on a Presidential Commission for almost a year.

Awards and Recognitions: President, Baltimore County Medical Association; Chairman, Political Action Committee, MD Psychiatric Association; Honor Student, Yesodei HaTorah Yeshiva; Honor Student, Etz Chaim Program.

Public Service Contributions: Baltimore County Task Force on Rape; Johns Hopkins Roll Call Class Representative, 1956-76; Associated Jewish Charities, Chairman for Young Physicians Campaign and Physicians Campaign; Beth Tfiloh Congregation Brotherhood Board; Hebrew Immigrant Aid Society (HIAS) of Baltimore, board member and chairman.

Activities, hobbies, interests: Learning about many things especially my professional field of mental health and my Judaism; being with my grandchildren; living with Shoshana in our apartment in the Old City of Jerusalem, Israel.

Hopkins memories: In 1953, our sophomore class invited the administration from the U.S. draft program to speak at Hopkins. The Korean War was “very active” as was our draft boards and we talked about students being drafted. While this was a “hot topic” only 12 men from the entire school came to hear our speaker. I was humiliated as Class President. The speaker, a U.S. Army General, patted me on the back and said, “Young man, don’t worry. The men I want to speak to are out there waiting to hear me speak. Those not here don’t matter.” I was much relieved and have assumed that attitude on similar occasions of disappointment.

JHU Degrees: BES, DE (1963) in Electrical Engineering

Spouse: Natalia Bohdan
2 Sons
Career Highlights: First job after JHU was Assistant Prof of EE at University of Delaware. In 1965, went to Bell Telephone Labs military department for non-academic experience. Then back to University of Delaware as Associate Prof of EE, and (1977-1980) Assistant Dean of Engineering. In 1980, joined the JHU Applied Physics Lab in the submarine department, retiring in 1999.

Awards & Recognitions: Elected Fellow of the Institute of Electrical and Electronics Engineers, 1996.

Public Service Contributions: Currently a clinical volunteer in the emergency room of the Howard County General Hospital (a division of Johns Hopkins Medicine).

THOMAS GRASSON MCWILLIAMS, JR.

Nickname: Tom

245 Plum Point Road
Elkton, MD 21921
410-392-4953

JHU Degree: BES in Chemical Engineering

Other Degrees: PhD In Chemical Engineering from University of Maryland, 1964

Spouse: Rosalinda Wepf
3 Children, 2 Grandchildren, 1 Great-grandchild

Career Highlights: Instructor, Department of Chemical Engineering, University of Maryland, 1958-1963; Assistant Professor of Engineering, Old Dominion College, Norfolk, VA 1963-1966; Chairman Dept of Chemical Engineering, West Virginia Institute of Technology, 1966-1980; Promoted to Professor in 1969, Also Chairman, Dept of Chemistry, 1972-1977; Professor and Dean of Engineering, School of Engineering, Widener University, 1980-1998; Professor and Dean Emeritus of Engineering, Widener University, Chester, PA, 1998-present; Other career activities included work at Glen L. Martin, Bureau of Mines, Norfolk Naval Shipyard, NASA-Langley, Union Carbide and consulting. Through these experiences I learned that “the role of a leader is to serve.”

Awards and Recognitions: Citation of Merit, American Institute of Chemical Engineers, Charleston Section, 1973; Tau Beta Pi, inducted as eminent engineer by Pennsylvania Iota Chapter, 1983; Centennial Medal in recognition of outstanding achievement, University of Maryland, School of Engineering, 1994; 1998 Delaware Valley Engineer of the Year; Fellow Member of the American Society for Engineering Education, 1999; Listed in Who's Who in Engineering and Who's Who in America.

Activities, Hobbies, Interests: Boating in an 18-foot outboard cruiser extensively while in Norfolk. Served in 1974 as Commander US Coast Guard Aux Flotilla 2-2 Montgomery WV. Made trip from Miami to Norfolk up the Intracoastal Waterway 1100 nautical miles in nine days in 1970 with son Albert and two colleagues, and Montgomery to Madison Indiana with the family. Led many whitewater rafting teams through the New River Gorge in the 1970's before it was commercialized; Candidate for County Commissioner in Cecil County Maryland, District 5 in 2002 and 2004. Came with in 1.2% of winning the last time.

Hopkins Memories: This year the 48th gathering of some past members of the Hopkins Amateur Radio Club, HARC, was at my home on January 1, 2006. There are regular summer meetings of HARC as well. I especially remember Dean Kownhoven, Prof Ralph Witt, Prof "Pop" Hettinger, Prof Harold Hoelscher, Prof James McKelvey who later served as Dean of Engineering at Washington University for 35 years, and Professor Robert Pond who made a presentation for me at a meeting of the American Society for Metals in West Virginia.

THEODORE O. POEHLER, JR.

Nickname: Ted

8 Seminole Avenue
Baltimore, MD 21228
410-747-3796
top@jhu.edu

JHU Degrees: Bachelors, Masters, Doctorate in Electrical Engineering

Military Experience: U.S. Army Ordinance Corps

Spouse: Anne Evans
2 Children, 2 Grandchildren

Career Highlights: I joined the Applied Physics Laboratory in 1963 and returned to the university's Homewood campus in 1990 as associate dean of the Whiting School and am now Vice Provost. I am responsible for university-wide research policy and for coordinating joint research initiatives among Johns Hopkins’ nine academic and research divisions. I am primarily responsible for promoting the commercialization of Johns Hopkins-based research. I serve as the university’s primary contact with the business community and with government on local, regional and national economic development issues. I am responsible for matters related to research compliance and serve as the Institutional Official for the Animal Care and Use Program. I am responsible for the oversight of the University Research Administration Projects Office, the office of Johns Hopkins Technology Transfer and the Office of Corporate Alliances.

Awards & Recognitions: In November 1996, my Johns Hopkins colleague Peter C. Searson and I announced that we had developed an all-plastic battery using polymers in place of the conventional electrode materials. Popular Science magazine honored the battery with a "Best of What's New" award, naming it one of the top 100 new products, technology developments and scientific achievements on 1996; Distinguished Alumnus Award from the Johns Hopkins University Alumni Association (2002)

Publications: I have authored or co-authored 154 papers and earned 14 patents related to semiconductors, polymers, organic charge-transfer complexes, and lasers. Examples of recent publications include: H. Sarker, I. Ong, S. Sarker, P.C. Searson, T.O.

NELSON W. POLSBY
1500 Leroy Avenue
Berkeley, CA 94708
510-849-2925
nwpolsby@berkeley.edu

JHU Degrees: BA in Political Science

Other Degrees: MA and PhD from Yale

Spouse: Linda O. Polsby
3 Children, 2 Grandchildren

Career Highlights: I have been a political science professor since receiving my Yale PhD in 1961. I write mainly about US national government and politics and have taught at Wisconsin, Wesleyan, and since 1967, Berkeley, plus visiting posts at Columbia, Yale, Harvard, Stanford, Oxford, Hebrew University of Jerusalem, and LSE. I have also spent time in Washington, at the Brookings Institution, American Enterprise Institute, and the now defunct Roosevelt Center.

Awards and Recognitions: Twice a Guggenheim Fellow, twice a Fellow at the Center for Advanced Study in Behavioral Sciences; Honorary degrees from University of Liverpool and Ecole Normale Supérieure (Cachan) (plus an Oxford MA in order to teach there); Yale Medal, Wilbur Cross Medal from Yale; Fellow, American Academy of Arts and Sciences, National Academy of Public Administration; Vice President, Political Studies Association (UK).

Publications: I write occasionally on current politics for newspapers and magazines, including an on-line publication, The Forum, which I also co-edit. Books include How Congress Evolves, Political Innovation in America, Consequences of Party Reform, Political Promises, Community Power and Political Theory and (with others) British Government and its Discontents, Presidential Elections (11 editions), New Federalist Papers. Also, many articles in scholarly journals, editorial boards of several journals, including American Political Science Review, Annual Review of Political Science plus the eight-volume Handbook of Political Science.

Public Service Contributions: I have served on a few advisory committees, e.g. the Committee on Behavioral Science and Education of the National Research Council, the Committee on Public Engineering Policy of the National Academy of Engineering, Select Committee on Government Research of the US House of Representatives.

Activities, hobbies, interests: Mostly sedentary: reading, conversation, occasional movies, plays, concerts, and trying to keep up with friends and family. I get a lot of pleasure from my work, which requires watching political developments and other foolishness.

Hopkins memories: Hopkins was an exceptional intellectual experience for me. The young Harvey Wheeler, Robert Tucker, Frank Rourke were all at the top of their games. Fine teaching by Eva Rubin and George Benton stuck with me as well. I benefited greatly from Detlev Bronk’s new plan, from a scholarship, from classmates and graduate students in Departmental Seminars, and from Frank Rourke’s open door and open mind.

cwschmidt@jhmi.edu
JHU Degrees: BA and MD
Military Experience: US Army Captain, Medical Corps, Korea and Fort Lewis, Washington
Spouse: Carmen Mason
2 Children, 4 Grandchildren
Career Highlights: Professor of Psychiatry, JHU; Department Chair of Psychiatry, Johns Hopkins Bayview Medical Center; Chief Medical Officer, Johns Hopkins Health Care; Chair, Medical Board, Johns Hopkins Bayview Medical Center; Former President, Johns Hopkins Bayview Physicians, P.A.
Awards & Recognitions: Presidential Award, American Psychiatric Association.
Publications: 40 peer reviewed; 35 book chapters; 52 abstracts; 1 book; 4 films.
Activities, hobbies, interests: Tennis (now doubles), golf, fly fishing (trout, bone), grandchildren, travel, and gardening.
**Hopkins Memories:** Despite the work, a good time at Homewood as an undergrad but even a better time at medical school. Attending the graduation of my daughter from JHU, 1988. Following the development of the JHU women’s lacrosse team and my daughters playing on the team.

**James W. Schneider**

*Nickname:* Jim

3210 N. Leisure World Boulevard, Apartment 503
Silver Spring, MD 20906
301-438-8068
schnjw@erols.com

*BA in Physics*

*Spouse:* Martesea Harbaugh
2 Children, 4 Grandchildren

*Career Highlights:* I retired in 1996 after 35 years at Johns Hopkins Applied Physics Laboratory (APL). At the time of my retirement, I was Associate Department Head of APL’s Fleet Systems Department. Virtually my entire career was spent in research and development of naval air defense weapons systems. For many years I also taught “Systems Test and Evaluation” in the Johns Hopkins University Systems Engineering Masters Degree Program.

*Activities, hobbies, interests:* My wife and I spend six months of the year at our second home on the outer banks of North Carolina where we play golf, fish, and enjoy the slower pace of life. As a member of the U.S. Coast Guard Auxiliary, I participate in the Public Boating Safety Education Mission and also assist in proficiency training of active duty boat and air crews.

*Military Experience:* Regular Army—U.S. Infantry—6th Infantry Regiment, Berlin, Germany, 3 years

*Spouse:* Deceased
3 Children, 5 Grandchildren

*Career Highlights:* Sweetheart Cup Co., Owings Mill, MD, 35 years—Owings Mill, Tennessee, and Arizona; Brown & Williamson, 5 years—Arizona.

*Activities, hobbies, interests:* Collecting pocket watches and books.

*Hopkins Memories:* ROTC Ball in 1955 or 1956

**Raymond Martin Schulmeier**

*Nickname:* Ray

710 Kings Path, Unit 3B
Bel Air, MD 21014
410-638-2624
rayschulmeyer@comcast.net

*JHU Degrees:* BES in Electrical Engineering, BS in Mathematics (1968), MS in Numerical Sciences (1970)
**Military Experience:** US Army Signal Corps, 6 months active duty, 8 years reserves

**First Spouse:** Audrey Lee Fink (deceased)
3 Children

**Second Spouse:** Mary Louise Pacione
Combined 7 Children, 11 Grandchildren

**Career Highlights:** I worked 40 years as an engineer, 35 years at Westinghouse. I was Engineering Manager for the Moroccan and the Egyptian Air Defense Systems. I was also the Program Manager for the Jordanian and the United Arab Emirates Air Defense Systems. I actually signed all the contract papers for the United Arab Emirates (>$350 M) System; I have been on the faculty of JHU; Whiting School of Engineering, Part Time Programs in Engineering and Applied Science since 1988. I have taught System Design and Integration since 1988 and began teaching System Test & Evaluation in 1995. In addition to teaching duties, each semester I mentor students enrolled in the Systems Engineering Project course. To date, I have mentored over 125 students.

**Awards & Recognitions:** Registered Professional Engineer in Maryland since 1968; Hold a patent for a detailed circuit design; Helped to originate and set up the Master of Science in System Engineering Program at JHU, WSE.

**Public Service Contributions:** Linover Improvement Association.

**Hopkins Memories:** My closest friends at Johns Hopkins were Joe Harrika (deceased), Mike Kott, and Charles Becker. Joe Harrika and Charles Becker were ushers in my wedding on 4/27/57. I enjoyed the Newman Club.

---

**ROBERT L. SCOTT, M.D.**

**Nickname:** Bob

3819 E. 66th Street
Tulsa, OK 74136
918-496-3973
rlscott@slubell.net

**JHU Degrees:** BS in Biological Sciences, MD

---

**Military Experience:** USAF 1962-1964, Captain

**Spouse:** Shirley Webber
3 Children, 5 Grandchildren

**Career Highlights:** My best accomplishment was being smart enough to marry my wife.

**Activities, hobbies, interests:** Bicycling, trout fishing, sailing, skiing, and bridge.

---

**HERBERT SILON**

**Nickname:** Herb

2518 Melody Way
Jeffersontown, Kentucky 40299
502-267-7377
rtherb@earthlink.net

**JHU Degrees:** BES in Industrial Engineering

**Spouse:** Ruth Goldberg
3 Daughters, 1 Son, 2 Stepsons, 5 Grandchildren

**Career Highlights:** After graduation, I worked for DuPont for 41 years mostly in a management function. Most of the time was spent at the Louisville, KY plant. The last part of my DuPont career, I worked in Houston, TX, Singapore and Wilmington, DE. During these 41 years, most of my effort was devoted to Information Systems. Upon retiring in 1997, I spent a year and a half consulting with Anderson Consulting, now known as Accenture.

**Awards & Recognitions:** I am a past President of the American Institute of Industrial Engineers, Louisville Chapter; a past President of the Data Processing Management Association, Louisville Chapter; a founding member and past president of The Association of DuPont Credit Unions. I was presented the President's Award for service by the Old Kentucky Home Council Boy Scouts of America; recognized by the State of Kentucky for service on the Kentucky Efficiency Task Force; commissioned a Kentucky Colonel by the Governor of Kentucky and recognized by the IRS for volunteering to do tax returns for low income families and elderly people.
Public Service Contributions: I have served on the Boards of two synagogues, and currently I am the House Chairperson of Congregation Adath Jeshurun in Louisville, KY.

Activities, hobbies, interests: My main hobby, although dormant at this time, is model railroading. My wife and I enjoy traveling and do as much as we can. So far those travels have taken us all over the United States and outside the US to Israel twice, Singapore, Australia, New Zealand, Canada, and the Panama Canal.

Hopkins Memories: There are many good memories of my Hopkins experience but the one that stands out the most is starting out as a DJ on WJHU when it was located in the second floor of Levering Hall and following its growth to the “new” dormitories during my tenure as Station Manager.

HARRY E. SILVERWOOD, JR.

5 Valley Oak Court
Timonium, MD 21093
410-252-1418
harryanddoriss@comcast.net

JHU Degrees: BA in Political Science
Other Degrees: LLB from University of Maryland School of Law

Military Experience: US Army Artillery. Active duty at Ft. Sill OK; Army Reserve and Maryland Army National Guard for 21 years; retired at rank of Major, USAR

Spouse: Doris Prem
3 Children, 5 Grandchildren

Career Highlights: Began my legal career in 1960 as an associate, and then partner, with a small law firm in Baltimore. Left in 1970 to join the legal department of Commercial Credit Company in Baltimore, becoming General Attorney for Business Services in 1984. Left Commercial Credit in 1988 when the subsidiary was sold and moved to Buffalo, NY. Became partner with the Baltimore firm of Smith, Somerville & Case and remained until the firm dissolved in 1997. I then rejoined Commercial Credit Company (later renamed Citifinancial) as Associate General Counsel until my retirement in 2003.

Public Service Contributions: President of Pine Valley–Valleywood Community Association; President of Pinewood School PTA; Chairman of the Scout Troop Committee; And various other tasks I couldn’t talk my way out of; Also served on the Johns Hopkins Alumni Association’s Executive Committee for six years, the Alumni Council for six years and the Baltimore Chapter of the Association for six years, serving as President in 1993.

Activities, hobbies, interests: Current interests include spending time with my grandchildren, golf, tennis, swimming, traveling, playing the piano and just sitting and reading on the beach in the Caribbean in the winter and at our place in Delaware in the summer.

Hopkins Memories: Joining the Delta Upsilon Fraternity and making a number of great friends, many of whom I still see; playing football and lacrosse (although I was never any good at either sport); playing college drinking songs on the piano in the fraternity house basement; the big dances in the gym; Levering Hall while “missing” classes; Homecoming; and meeting my future wife, Doris, in the emergency room at Union Memorial Hospital where she was on duty as a student nurse.
