Dear Mr. Gilman

Your letter of Jan 30 is just here.

Certainly, I shall be glad to come for the evening of Mar 31. It is necessary that 2 stereoscopes shall be used, so

that 2 views can be thrown on the curtain at the same time. This for comparison, the principal point

of the lecture. This point was not made in Phila. owing to <sup>the lack</sup> want of thought by the Dept. of the Dept.

Inst. Again, a large curtain is needed, unless the stereoscopes are within 25 or 30 feet of the curtain.

All my lectures were written for instruction, given to the architectural students of the Mass. Inst. of Tech.

Very truly yours  
T. H. Bartlett

D. G. Gilman.

Pres. Johns Hopkins University
