November 16th 94

Professor Daniel C. Gilman,
President John Hopkins University,
Baltimore, Md.

Dear Sir:

Permit me to place before
your consideration one of the most in-
structive and useful works ever produced
in relation to the University of Cal.
It is the Ill. History of the Univ. of Cal.
Your past interest in the educational
progress of these State, and your present
zeal in its future cannot do otherwise than
create a desire to possess a copy of this val-
uable and artistic work. There has been
no pains spared in its compilation, which
has been done by Prof. W^m Carrig Jones,
who is perhaps, better fitted for such a
work than any other person in these State,
