Atlanta, Ga., June 21, 1895.

Hon. D. C. Gilman, L. L. D.,

John Hopkins University, Baltimore, Md.

Dear Sir:-

Immediately on receipt of your letter asking me to look after certain matters of interest connected with the Atlanta University and Clark University, I addressed a letter to the officers of these institutions, asking for a conference at my office at some time that would suit their convenience. I waited a good long time, and having had no reply I repeated the request, through a communication, copy of which I forward to you by this mail. I send you, also, the replies just received at my office. In order that I may be a little more definitely informed, I shall be greatly obliged if you will write me exactly the information that the Board would be glad to have me obtain, and the line of action that I am desired to pursue. I shall be more than pleased to serve these interests in any way within my power.

Truly, etc.,

Manager
