Gannett, H.

Prof. D. C. Gilman,

President Johns Hopkins University,

Baltimore, Maryland.

ack

My dear Sir:

Referring to your suggestion made last winter that I write an article on the Occupations of the Negroes for the Slater Fund, I beg to say that I have at last succeeded in obtaining the statistics of occupations from the Census Office, and have commenced the pamphlet in question. I hope to have it finished before I leave the city in July.

The matter will not admit of expansion to anything like the dimensions of my former pamphlet. As I see it at present the subject can be treated as fully as the statistics will warrant in one-half the space.

Sincerely yours,

Henry Gannett.
