Sept 17

President - D. C. Gilman

My Dear Sir,

Your very kind letter was recd a few days since, and I have almost concluded I can arrange to go to Atlanta about the 15th of October if no unforeseen interference should "turn up".

May I ask you if there is any provision made for the expenses of the judges, or is it to be a wholly gratuitous service by them?

I presume there is no remuneration for time - indeed I think this would not be in keeping with such a position of honor - as I deem it, but I think Dr Day told me that the actual expenses of travel etc - was to be provided for.

I am very sincerely yours
J. A. Brashear

am

P.S.

In case I cannot serve - and your appointments are not confined to a certain number for each State, I would suggest the name of Ambrose Swasey, of Warner & Swasey, Cleveland, Ohio, whom I think is one of the best judges of mechanics in this country. B.
