

Return to New York Dec 18/1895 - 17

Mr D. B. Gillman

See  
in J. H. L. O  
O

Chase, M. H. Dear Sir

I take the liberty of  
sending you, herewith, several letters from  
Atlanta. If you should wish me to  
answer these letters I will of course  
do so.

Relative to exhibit of Jacobi &  
Jubins Silber & Co. I have merely to  
report, that Professor Goode promised  
me to examine and report upon this  
exhibit.

Hawkes Optician Exhibit. I think  
you will agree with me, should not  
have come to our committee.

Exhibit in Minerals & Forestry Building  
from state of Michigan. By their  
own admission of oversight can not  
be charged to negligence on our  
part. I distinctly remember visiting

A. B. Dick Co. Vineyard. I remember perfectly asking several times, different members of the Jury, if it had been passed upon, and the reply was, as I understood it at the time, that it had.

Miss Mary Montford Cleckley. Exhibit in Roman's Building should have come under Mrs Lewis's care. Also that of New Haven Clock Co.

I think you will understand me when I say that, could I have possibly imagined so much apparent neglect on the part of our Jury of Manufacturers, I would have remained in Atlanta another month if necessary. The fact that a considerable part of the blame must rest with the management

an exhibit of Red Cedar Wood and Wooden Ware. and was informed that all was reported upon by another committee. The exhibit of Wooden Ware was a good one, and could properly be recommended for a Bronze or Silver Medal.

Styles & Co. Hartford. Marine Railway Ink-stands, being in the Roman's Building should have come to Mrs Lewis. She promised, as you know, to attend to all goods in this building.

Computing Scale Co. Dayton. Ohio. I remember seeing, but did not feel that it came under department of manufacturers. But rather belonged to Educational Exhibits.
