THE JOHNS HOPKINS HOSPITAL,
NORTH BROADWAY.

HENRY M. HURD, M. D.
SUPERINTENDENT.

Baltimore, Sept. 30th. 1895

Dear Mr. Gilman,

work

I find that A.W. Calhoun M.D., L.D.D., is Professor of Diseases of the Eye, Ear, Nose and Throat at the Atlanta Medical College and one of the Surgeons to the Grady Hospital. He is a graduate of Jefferson Medical College in the year 1869.

Dr. J. McF. Gaston is Professor of Surgery in the Southern Medical College also at Atlanta. He is a graduate of the South Carolina Medical College. Both, I should judge to be very good men. Dr. Gaston is a man of at least 70 years of age.

Very truly yours

Henry M. Hurd

The instruction in this institution will be thorough, and the facilities afforded the student will be made ample in all its departments. Ample facilities for dissection, and Practical Anatomy thoroughly taught by the Professor of that branch. Anatomical material preserved in refrigerators at all times of the year, and furnished in abundance by State Laws. This Institution offers facilities for medical study superior to any in this section. A new and magnificent building accommodates three hundred students and all the equipments are first-class in every particular. The site of the building is immediately across the street from the new Grady Hospital of the City of Atlanta, where every opportunity will be offered for the clinical study of diseases. Instruction will consist of didactic and clinical lectures in the college amphitheater and in the hospital. Course thorough in all departments. Three sessions of six months each requisite to graduation.

Good board may be had in the city at from \$2.50 to \$5.00 per week.

Students on arriving in the city, are requested to call on the Janitor, at the College building, near Grady Hospital. For matriculation requirements, etc., address
