Oll

BOSTON, Oct 26 1895

My dear Dr. Gilman.

I have a very meagre
report to make to you.

There was very little in
the line of domestic appliances
to be seen.

If you have any influence
in the Baltimore Exposition
as to the class of exhibits
I hope you will use it in
favor of a really good and
complete exhibit of things
essential to the daily life of
the household. How much
more valuable such an exhibit
in woman's province would be
than any we have yet seen in
the so-called woman's Buildings
very truly yours
Ellen H. Richards
