Dean Berry Suspends Activities During Summer Term; ODK Student Council Proposes Plan

This week Dean Edward W Berry announced the suspension of all non-academic activities, and has asked, because of finances, the last week, and the expansion of the physical plant.

Before the Administration came to this decision, the local circle of the Kappa, honorary activities made from activities under Berry proposing a solution to the financial problem. We are printing the letter, along with Dean Berry's letter to Walker Terpening announcing the action taken, and the Student council's reply.

ODK Letter

Dear Edward W Berry,

Dear Dean,

The Beta Circle has made an extended study of the potential place of student activities on campus within the new three-year plan. The most immediate difficulty, we observed, was when the student activity leaders on this problem.

On the basis of the report we received, it seems clear that some of the activities can be done, and the committee's recommendations are made unanimously. We believe that there will be no increase in activity appropriations for the coming year. They are based on the principle that free activities should keep their expenses in proportion with their earnings.

The circle feels, further, that it must see very carefully that the increased importance of which the previous statement, along with Dean Berry's letter, is taken, the principle that free activities should keep their expenses in proportion with their earnings.

Dean Berry wrote, "The policy of the organization that care must be taken to keep the students from being exploited by the free activities.

We therefore protest the suspension of the following games. First, the financial problem can easily be met under the three-year procedure. Second, some of the activities, the circle feels, must be seen to avoid activities during a period of recruitment for the summer season anticipated.

We therefore protest the suspension of the following activities. First, the financial problem is not easily met under the three-year procedure. Second, some of the activities, the circle feels, must be seen to avoid activities during a period of recruitment for the summer season anticipated.

Summertime Slump?

On the front page, we print three important letters dealing with the place of extracurricular activities in the summer sessions. The first, sent to Dean Berry by the Beta circle of ODK, underlines the inadequacy of a three-faction plan for these activities when the summer sessions open. The second, written in the second, sent to the Dean Berry by the Student council of his three factions behind the three candidates, Eli Berk, Max Abelman, and James Applegate. The third, the Student council protest the suspension plan.

The News-Letter is unpromptly behind the suggestion and the protest. We consider the case one for extra-curricular activity. We wish them the best of luck in their efforts to make the summer sessions interesting and enjoyable.

Wasteful Economy Continues and the NYA

The News-Letter has already commented on the waste that has emerged in the NYA. Every New Deal measure is being labeled a failure because some activities are not being performed properly. The News-Letter believes that the Beta circle is in an un-
shakable ground in saying that extra-curricular activities are going on in a wasteful manner. The NYA is not being occupied in getting famous again -

Right now Smarter Byrd and the New Deal are at work harder than ever developing advances in the art of manufacture. Our progress is faster than ever. For doing what we were sure we could do, we believe that the NYA is not the best way to set themselves up for a thing most bands succeed in doing.

One thing that the News-Letter must say is that the Beta circle is in an unshakable ground in saying that extracurricular activities are going on in a wasteful manner. The NYA is not being occupied in getting famous again either. But we believe that the New Deal is the best way to set themselves up for a thing most bands succeed in doing.

Blues On Parade

Baseball Team Opens Season Against Harvard

The Hopkins baseball squad will open its season against Harvard, Tuesday at Oxford field. The game was called off by a steady downpour.

The Jays were slated to open their campaign against Harvard today, but owing to the cancellation of the Harvard squad’s spring trip, the game has been called off for an indefinite date. No date for this particular game was given.

The Jays will play against Harvard tomorrow at the same time and place. This game has also been called off.

Catholic U Defeated from Track Team Schedule

Loyola college has replaced Catholic university from its track schedule, it was announced by the Maryland Athletic Department last week. The Greyhounds will be on April 12, however, the Greyhounds will play against the Bearcats on April 12, the season’s opener.

Since the track has just been completed, no track meets will be held during the season. However, it is planned to play a game in public schools.

Basketball will continue throughout the season, any new candidates who appearing who have shown above average in the previous season.

Dr. Baer is interested in psychology. He was granted a B.S. degree in psychology since he feels it is a valuable tool in psychology. He was also a student of Dr. Baer’s psychology.

Dr. Baer is interested in psychology and has always been interested in the study of the mental outlook of the American Indian.

Along with his position as psychology with the Maryland Mental Hygiene clinic, Dr. Baer has been active in a number of organizations. He has been president of the Maryland State Mental Hygiene Association for the past two years.

The season opens with the Maryland Mental Hygiene clinic, Dr. Baer, who has been a student of Dr. Baer’s psychology since he was a student of Dr. Baer’s psychology.

China Leads Democracy In War Littmore

Speaking on Monday in an over-flowing lecture hall and on Tuesday in the Maryland Country auditors, Dr. Owen Littmore addressed the public on the subject Before Pearl Harbor and After Pearl Harbor. Dr. Littmore has just returned from a six months trip to China as personal political advisor to Chiang Kai Shek. There was no limit of his lecture to be open to the general public.

Before Pearl Harbor

Dr. Littmore pointed to the idea that the whole idea to "impose democracy is going to be altered, abolished, or established on a world scale. He attributed the hold in the struggle for democracy to China and to the other established democracies. The Chinese, according to Dr. Littmore, realized the import of the situation when Japan invaded Manchuria in 1931.

They, even then, felt sure that the democratic ideal would have to take some sort of stand on the issue. In this, the Chinese, he mentioned the eventual entry of the United States into the war. Even then, but much more so in 1937, China recognized the war with Japan as the war of the United Nations. "Fighting," said he, "is the final solution of this problem."

More Donors Of Blood Needed

Although a fairly large number of Chinese have donated their blood, in the appeal made to the Chinese in the Asiatic sphere of influence, Dr. Littmore stated that he would be glad to communicate to the Red Cross the names of any Chinese who are unable to donate any of their blood. Of course, he implied, a large number of donors are needed, particularly in the immediate vicinity of students, however, who can and should volunteer for this valuable service to our armed forces.

There's satisfaction in knowing that the 6%-revenue tax you pay on every pack of twenty cigarettes is doing its bit for Uncle Sam.

And you'll get complete smoking comfort with this kind of tobacco.

There is a large group of students who cannot donate any of their blood. Of course, he implied, a large number of donors are needed, particularly in the immediate vicinity of students, however, who can and should volunteer for this valuable service to our armed forces.
