Gore-Booth, British Service Head, Speaks To Debaters

By JOSEPH SOLEY

Mr. Paul Gore-Booth, new head of the British Information Bureau in the United States addressed a combined meeting of the Debate Council and the International Relations Club yesterday afternoon.

"The Progress of Nationalisation in Great Britain" was the topic of Mr. Gore-Booth's talk, which was his first in this country since his arrival last week.

The program was designed by Earl Rausen, president of the Debate Council, to enlighten the debaters on nationalism in Great Britain in conjunction with the current national debating topic, "Resolved: That the federal government shall nationalise all non-agricultural industries."

Mrs. Gore-Booth was a member of the British delegation which attended many international conferences during the war, including the International Food Conference at Hills Spring in 1943, the UNRRA Conference at Atlantic City, by the same year, the Civil Aviation Conference at Chicago in 1944, the International Conference at Dunbarton Oaks and the United Nations Conference at San Francisco in 1945.

Order of St. George

Mr. Gore-Booth was associated at Rome and Oxford and joined the British Foreign Service in 1933. He has held diplomatic posts in Vienna, Tokyo, and Washington.

In 1945 Mr. Gore-Booth was transferred from Washington to

400 Students Back Y Membership Drive

In response to a challenge for 400 members for the Levering Hall Y, by the end of the month, 6 subscriptions rose to over the 400 mark. Y membership chairman Morris Blaustein stated early this week.

"This slight increase in the momentum is not nearly sufficient," Blaustein added. Greater effort by the committee is in support of the program.

Mixer Dance Set Tonight

Goucher College Freshmen numbering 159 and a multitude of special entertainments will feature the Goucher Mixer Dance to be presented from 9 till 12 this Saturday night in the Levering Hall cafeteria by the YMCA Freshman Commission.

The tempo will be provided by Jerry Sardi and his orchestra for a program which will include a series of intermission talent acts from campus dignitaries.

Tickets are on sale at both freshmen and sophomore in the Levering lobby, in the cafeteria and from members of the commission.

The dance will be cabaret style, and refreshments will be served. Commission president James Godley is in charge of arrangements.

Hawkins Fling Set For Gym

Said Hawkins's Day will bring a crowd of underclassmen to the Sliderule Soiree tonight, the Engineers have obtained the use of the Academy Room, Oriole Room as well as the Wedgwood Room at the Hotel Emerson.

No table reservations are required but grouping of tabas in small parties is encouraged. Dick Deppink's Ten Misconstrued Engineers will provide the music from 9 till 10.

Plenty Of Contact

The sponsor and creator of Hocow are girls with plenty of engineer contact. Betty Llewellyn, graduate of D.C.I.A., is the wife of Charlie Llewellyn, chairman of the Engineers Club Control Board.

The confirmation of Dr. Lowell Reed as vice-president of the University and Hospital and the financial situation of the schools were reported to the Board of Trustees, this week.

Board of Trustees of the University gathered in the Goodwillies Room at 4 Monday afternoon for their triannual meeting.

Meet Three Times

The combined Board has only three regular meetings in order to keep the trustees posted on the affairs of the University.

Dr. Reed, for three years vice-president of the Hospital Board of Trustees, has been selected as vice-president of the Hospital and University.

Step To Coordinate

This step was made to coordinate activities of the University and its most Baltimore branches in matters involving joint operation of the two areas.

The medical branch includes the School of Medicine, and of the (Continued on Page 5)

Hill Emphasized, however, that it would be up to the individual

Bar Casting Completed

Casting of most parts for the following play for "The Petrified Forest" was completed last Tuesday night.

Director Paul Hirciawa warns as the assignments are still tentative and efforts to change during the first weeks of rehearsals. The present lineup for the play, to be given December 18 and 19 in the ROTC building, follows:

The first production in the series of three regular meetings in order to keep the trustees posted on the affairs of the University.

Plots For Class Day

John Dower, president of the Omicron Delta Kappa honorary fraternity has disclosed the appointment of a nominations committee with Sid O'Brien as chairman and a class/day committee with chairman Bill Kilings.

The nominations committee is to pick candidates for membership and it plans to establish a point rating system for scholars, which is a criterion for selection.

The topping procedure for the full ticket is scheduled for the Western Maryland football game on November 19.

J. LOWELL REED
Appointments and high salaries

Reed Named VP of Two Schools

The confirmation of Dr. Lowell Reed as vice-president of the University and Hospital and the financial situation of the schools were reported to the Board of Trustees, this week.

Board of Trustees of the University gathered in the Goodwillies Room at 4 Monday afternoon for their triannual meeting.

Who's Who Selects 10 Students

Who's Who Among Students In American Universities and Colleges has recently announced the selection of 16 Johns Hopkins undergraduate students for the 16th Who's Who list — the outstanding students in universities and colleges throughout the United States.

The selection committee included: George L. Becker, SAC chairman; Merri L. Castle, honor commission; William P. Clinger, Jaywalker editor; John C. Dawson, ODK president; and W. Bayne Gibson, student body president.

Amos T. Mailman, president of the Johns Hopkins University, has been named as the chairman of the Seattle Board committee, and George L. Mitchell, ODK, basketball captain were also honored.

Bill Witten, Tog, and Stuart Cup director; and W. Bayne Gibson honored.

Cheerleaders Hit Classes For Uniforms

"Each individual class has to contribute financially to each things as the purchasing of Cheerleading sweaters." This description was used in this week's meeting of the Student Council.

Previously the Council had announced that the amount of money to be raised from the dance for council work would be reduced from a $75 of last year to $60 for this year. However, if the money were to be purchased through the Council the old rate of 10¢ would be restored.

While it agreed that sweaters were badly needed by the cheerleaders the general opinion was that it would not be fair to give financial aid to one activity and not to others. Further discussions will take place at the next meeting.

Tau Beta Pi Visited

On Thursday afternoon of last week Mr. Merton Cory, National President of Tau Beta Pi honorary engineering fraternity, visited the Hopkins Campus.

Mr. Cory has recently retired from the post of Dean of Engineering at Michigan State University and is at present making an extended trip of the Tau Beta Pi chapters in the East and South.

After touring the campus and visiting with Dean Crousehorn, president Cory attended a reception held in his honor by the Hopkins Chapter of Tau Beta Pi at the Faculty Club.

 council will no longer meet time and place every other week starting with the Spring Quarter. One student recently received a connection for 12 the house that has not been affected by the change from small enough (12) to provide a closer association for members of the department with distinguished faculty, the informality of the school, "the Hopkins assembly committee urged the student body to utilize the Assembly and to attend as many meetings as possible."

The annual Christmas assembly year the deficit was one-fourth the Hopkins assembly with the assistance of the Medical Branch, Minister for a co-ordinating meeting at Mr. Barton's home.

Dr. Edgar A. Draper, professor of sociology at Cambridge gave talks on "The Problems of Eng. Universities."
Tudor, Stuart Commemorates Twenty-Fifth Anniversary

The twenty-fifth anniversary of the Tudor and Stuart Club of the Johns Hopkins University was commemorated last week with the publication of the list of members.

The distinctive Hopkins literary club was endowed by Sir Wil- liam and Lady Osier 25 years ago as a memorial to their only son, Revere, who died in World War I.

Has Club Room

A club room was fitted out on the third floor of Gilman Hall on the Homewood campus by Mrs. William Brewster, a friend of Sir William. The room houses the club’s library of rare books and manuscripts, including one of the best collections of Spaniard in existence.

In its twenty-fifth year the club still continues the tradition of representation from the Home- wood faculty, medical school faculty, graduate student body and undergraduate group.

The current board of governors are: Dr. Charles R. Anderson, pro- fessor of American literature, president; Dr. Palmez H. Fitcher, medical school faculty, vice-pres- ident; Sidney Ott, undergraduate, secretary; Philip Griffin, gradu- ate English representative; and J. Louis Kneth, curator.

Distinguished Guests

Members are elected annually from the faculty, graduate and undergraduate student body. At a series of monthly smokers held throughout the year the club has numbered among its recent guests: Robert Frost, Douglas Bush, Los- lie Hathes, Merrill V. Hughes, William Hailer, Karl Shapiro, and Oscar James Campbell.

Three Elected To SAM

Posts; Gebhardt Speaks

In the election of the Society for the Advancement of Management last week, Jim Sellers was elected as Secretary, Don Resch as Junior Delegate to the Engineers Control Board, and George Marshall as Publicity Director.

The posts of chairman, treasurer, and program committee were filled last spring by Charlie Llewellyn, Bill Mariner and Bob Yeager. At noon today, Dr. Gebhardt of the Institute of Cooperative Re- search spoke to the Society of psy- chology as applied to engineering design.

On November 18, Mr. Pusella, Director of National Labor Relations Board, spoke at the Baltimore Hotel.

FТА Holds 1st Meeting

The initial meeting of a Hopkins chapter of Future Teachers of America was held last Wed- nesday in the Board Room of Let- tering Hall.

Club organizer Jack March was elected president, and discussion of FTA purposes and principles were held. March will be assisted throughout the coming year by Vice-president Jim Oswald, secre- tary Bulloch Stichton, and Joan Illman of McCoy College, treasurer.

Meetings have been planned for alternating Monday and Wednesday. An address by an officer of the Maryland State Teachers’ Association will be offered to members and prospective members.

In addition, a joint meeting with the Notre Dame of Mary- land chapter is scheduled for Tues- day, November 30.

Education Department Director Dr. Richard Munkin will sponsor the Hopkins chapter. All meetings are to be held in Gilman 216.

McDougle To Speak Here

"Successful Family Life" will be discussed by Gunther sociologi- st Dr. Donald McDougle in the fourth of a series of marriage talks in the Sherwood Room of Lettering Hall, Friday, November 11 at 2:30.

Dr. McDougle, who in addition be a professor at Gunther sociolo- gists at Hopkins, will stress the overall family picture and re- lationship between husband and wife.

This talk will mark the close of the fall series, which has been sponsored by the McCoy College Department of Philosophy. Presented in a time convenient for McCoy students and under- graduate students, the series has all been prominent in their re- spected fields, and mostly well atten- ded.

The newly formed McCoy Com- mittee plans to sponsor many similar worthwhile activities throughout the coming season.

6967 Students Attending Various Hopkins Schools

Figures released show that there are 6,967 students attend- ing the various Hopkins’ schools.

One thousand six hundred and eight students are enrolled in the university’s undergraduate school with the College of Arts and Science having 711; School of Engineering, 537; School of Busi- ness, 219.

Approximately 25 percent of the total are enrolled at McCoy College. The School of Higher Studies of the Faculty of Philos- ophy lists 681 students; Gradu- ate School of Engineering, 211; School of Medicine, 314; School of Hygiene and Public Health, 142.

Distinguished Guests

Members are elected annually from the faculty, graduate and undergraduate student body. At a series of monthly smokers held throughout the years the club has numbered among its recent guests: Robert Frost, Douglas Bush, Les- lie Hathes, Merrill V. Hughes, William Hailer, Karl Shapiro, and Oscar James Campbell.

Major Ed Wall, Harvard ’40

—Flying Executive, U.S. Air Force—

Born in Newark, N. J., he moved to Boston at an early age, graduated from the public Latin high school in 1939, en- tered Harvard the same year, where he majored in economics and government.

"Active on the campus" — he played football, earned his letter on the baseball team. He worked part-time in a variety of jobs from hooner to baby sitter, received his A.B degree in 1940.

He enrolled in Harvard Law School, left at the beginning of the war to become an Aviation Cadet. In December, 1943, he won his pilot’s wings, received a Reserve commission as Second Lieutenant.

 Assigned to anti-sub patrol duty, he flew B-25’s and B-17’s before going overseas in 1944, where he flew 36 missions as a B-25 pilot. Shot down over Germany, he was a prisoner of war for 3 months.

Back in the States with his English wife, he earned his Regular commission. Then he returned to Harvard under the Air Force college training program, receiving his L.L.B degree in 1949.

Now, he is confident about his future and security. As a pilot and legal officer of Rolling Air Force Base, D. C., Major Ed Wall is a typical U. S. Air Force flying executive . . . with a challenging career.

If you are single, between the ages of 19 and 25, with at least two years of college, and a flying career at an officer of the U. S. Air Force. You may be able to meet both of these requirements and be selected for training as an Aviation Cadet. If you do not complete Aviation Cadet training, you may remain in civilian life and continue studies, and be trained as an Officer Candidate School for an important officer assignment in non-flying fields.

Air Force officer procurement teams are visiting many colleges and universities to present these career opportunities. Watch for their arrival—get full details at your nearest Air Force Base, local recruiting station, or by writing to the Chief of Staff, U. S. Air Force, Attention: Aviation Cadet Branch, Washington, D. C.

ONLY THE BEST CAN BE AVIATION CADETS!
The problem of finance in recent surveys almost 50% of the nation's colleges would be willing machinations to scare up necessary funds for an ailing institution. A worming his way through all sorts of political and athletic decline in outside philanthropy as the main causes for the financial possible financial recession can only mean increased hardships for American colleges unless federal aid is brought in and used.

A that while the institution had somewhat reduced its annual debt endowments in the nation, Hopkins nevertheless finds its under a that men's college and one of the highest per capita university poorer college education for the students concerned.

The simplest and perhaps only possible solution to the financial question of the nation which things have come to a pretty pass. It seems that students at Union College must themselves to comment rather disfavorably upon the type of clothing worn by their friends.

According to an April dispatch carried in the evening Sun (pamphlet last week, columnist David Markon adds that "embracing a think college girl is like "making love to a coal cable." Further, Markon adds, the girls have taken to wearing "deadly bear traps" or "living" beneath their outer attire.

Knowledge. Not having read discipline and relevant knowledge to comment incisively upon a 100 mile rather distant development in college life, I called upon a friend in the school of engineering whom I consider to be a good man, no matter how complicated it may seem upon first investigation, "to conscience able." Secondly, anyone who has made love to a coaxial cable should be able to realize the ratio of his resistances sufficiently to cope with the dynamic tensile properties of a human female.

"This indicates, to the well-trained engineer at least, that the Union curriculum has subtly neglected the training in scientific investigation that is an integral part of the education of any well-rounded engineer, whether he be engineer or scholar."

We have found no one on the Hopkins campus with a similar complaint about the local College girls or Goucherians. One draw at least two conclusions from the results of our investigation.

In the school of engineering, whom I consider to be a good bit cogent subjects as Strength of Materials, Elementary Surveying, Atomic Physics, etc. His analysis into to translate it into English.

The translator's preface comments favorably on the commentary given by De Francis. This new volume is now available at the Hopkins bookstore.

The Intercollegiate Zionist Federation of America will hold its semi-monthly Oneg Shabbat on Friday evening, November 4, at 8 o'clock, at 3130 Liberty Heights Avenue. A cultural and social program has been prepared.

The commentary also enlightens the reader as to the personal qualities and political disputes over economic reform, the Lama Church, foreign orientation, and other issues arising from the remodeled transformation of Mongol society.

Reveals Mongolia

This book contains an introduction by Owen Lattimore, director of the Research Mongol states. The translator's preface contains interesting data concerning Mongolian life that for many years has been shrouded in mystery, particularly the life of the Mongols in 1945, the outside world obtained a glimpse into a society that for centuries has been shrouded in mystery and shrewdly crossing into a modern state. Dr. P hear the news of the death of the young journalist who died recently.

No Beartraps for Goucher Finds Scribe

By BILL REVELL

Up in Schenectady (N.Y.), things have come to a pretty pass. It seems that students at Union College must themselves to comment rather disfavorably upon the type of clothing worn by their friends.

According to an April dispatch carried in the evening Sun (pamphlet last week, columnist David Markon adds that "embracing a think college girl is like "making love to a coal cable." Further, Markon adds, the girls have taken to wearing "deadly bear traps" or "living" beneath their outer attire.

Knowledge. BABBITT AND THE CLUB

No Longer ‘Joiners’ Boosters Gain Purpose

By BENSON OFFIT

When Sinclair Lewis’ Babbitt joined the Boosters Club, he instituted the concept of the Blue Ribbon Athletic Club became a symbol of the American desire to belong for the young and the old.

The social, join-forever characteristic of the American man was revealed clearly for all the world to see in his “society” in which he presumed to be a member. What American man had not spent one thousand dollars for an annual membership bid? What American man had not been a Boosters Club member? The young and the old alike subscribed to the Boosters Club was the most formidable of his aspirations.

When a discerning eye turned to the Booster Club only to find what it had been advertised as, it discovered of such undertakings, was it indeed a group with design to do everything indiscriminately with almost a show of discouraging anything? What it was, it extended its membership bid at care, its allegiance was spent with less than it was able to cost.

Booster At Hopkins

At Hopkins during the first year of the institution of the Booster Club, there was a most impressive clustering around mutual interest, and the Booster Club was enshrined. It was a glorious upgrade, and an enthusiastic, civic-counter—and it became the local flavor of the city.

Once again the least optimistic citizens greeted the undertaking with auspicious endeavor. For although it could do no harm, so one was quite sure how it would do good. Its mission was clearly stated in its constitution: to promote and support campus activities where such aid is deemed necessary by the club. In addition it afforded the ambitious to acquire an incoming freshman with the purpose and functions of all campus activities and to attainable interest in college, spirit, and competition.

A minimum use of the word “spirit” managed to impress the activity clyster, who had long since come to regard its usage as just that indication that there was indeed no harm within.

The first group of boosters started out as a junior OSK with ambitions to go one better than the national honorary and that they would proceed by the end of the first semester. It were the men to watch on the campus. Everybody who was anybody in the freshman class that was a booster. One searching for a point in common among the first boosters found only the smiling aplombics face with no financial backing in the bank. There seemed to be little to hope for from the booster group. It was a spring of ’41 no one was quite certain just what a booster was.

However, when Grant Hill, leader of the lookers, tightened the reigns of the organization by obtaining a school endorsement thing began to look up. Hill had look the man that agreed that associates with a particular kind of booster—the kind that knew what’s best for you and assumes all responsibilities for seeing to it that what’s best is done.

Boosters On The Move

A couple of running camarades that have had recent routes everywhere from Westminster to West Point are part of the Booster Program. Ticket selling for all away athletic contests and the Neville posting of the meeting wreather of the week last winter all found its way on the booster program to boost Hopkins athletic teams. This year a booming can donates Hopkins touchdowns.

Quiet, Forceful ‘Vincent’ Brings Further Praise

By ALAN HOPPMAN

Occasionally, the non-professional cinema reviewer is faced with the problem of reviewing a film that has already been unanimously acclaimed by leading literary and movie critics of the country. To be sure, it is quite easy to cast in our lot, with the majority and occasionally out. It is not difficult to assume an air of sophistication intellectualism and laying emphasis on some pious trifle, condemn a picture as inevitable or generally mediocre.

With “Monsieur Vincent” currently playing at the Little Theater, this reviewer cannot help but agree with the opinions of other reviewers and recommend this film as one of distinguished merit. Winner of the Academy Award for the best foreign film of 1948, “Monsieur Vincent” is no stirring drama, but rather a quiet, though forceful, presentation of the life of Vincent de Paul, a human being, and it is here that the Hopkins Booster Club was the most formidable of his aspirations.

The story told of the many things in television—a revealing little item to be known as the telephone. Now on the surface it might seem that being able to see the person to whom you speaking would be an altogether delightful experience. Serious consideration of the matter, however, unveils the whole idea as a serious threat to the American way of life.

Vincent Corcel, Maurice Cheke, the director, and Pierre Fresnay, who played the priest, are the three principal characters in the film. The dialogue has been translated into English captions by Herman Weinberg; the background music is not at all noticeable, and could have been much more effective.

“Monsieur Vincent”, then, is simply the portrait of a saint. The film, however, shows the possibilities of cinema art, and is highly impressive even if the American films in its realistic and sympathetic treatment, of character.

Video-Phones Pose Big Problem

For Modest Maidens, Nudists

By HILL THOMBLEY

While consuming my typical college literary diet of sports, New Yorker, and “Li’l Abner”, the other day, I ran across a bit of scientific prose which could one not certainly change the entire attitude of mankind toward television.

This story told of the man in television—a revealing little item to be known as the video-telephone. Now on the surface it might seem that being able to see the person to whom you speaking would be an altogether delightful experience. Serious consideration of the matter, however, unveils the whole idea as a serious threat to the American way of life.

Within the picture aspires to greatness, of a woman condemned to death other end is his sweetheart Eustacia, paragon of virtue and all that is nicey-nice. Now can our hero race to the head without being possibly girding a Cannon special about his belt?

“Hell, no! He has got to get out of the bathroom race to his hospital, don white tie, tails, and cream-colored shirt, short, slick down his hair, and then host it to the America.

Smiling sweetly under the glare of flaming hot and sweating profusely through his television makeup, Hero looks like a non. clicks in on channel 15, and bids a fond good day to his lady.

“Babco, or Eustacia? Who is that Eustacia? You got to get the man out of the hospital now. Then he can get to the church and have the wedding.”

The call is held up for a few moments due to the interference of a low-flying saucer, but at least Eustacia’s sweet “hello” can be heard and her liquid eyes behold on Heroes 13-foot screen.

“You’re looking beautiful, Babco. Have you missed me?”

“Oh, Hero, you! Each moment without you has been like Howdy without Dale. I’ve cried tulips like Milton Berle, but there’s no one in the world for me but you, Hero.”

“Screen Rival”

Greedily released, Hero light, adds his script, and says: “What’s the matter with you Hero? I love you, I—”

“But wait! What is that in the background of the sour? What’s wrong? How is the earth playing tricks with Hero?”

“Hey, Hero! It’s fine!”

“What is that in the room with you, Eustacia? Who is that baby?”

Darkness Channel 15 clicks off and with it the love affair of Hero and Babco. You can see how an instrument like that could cause an awful lot of trouble.

Rogers House Impresses All

(Continued from Page 2)

Hill, on of Dr. Caceres’ chief interests is in the origins and spread of agriculture. Righting the errors of Breit, Dr. Pendleton is an authority on ancient crops and agriculture. He speaks fluent Italian, and before the war did field-studies in the Canadian Pacific. His book, ‘The Making and Spread of Agriculture’, is the most important work on the subject.

With skilled personnel and modern facilities, the Rogers House Experimental Farm was re-established in 1949 as one of the Model village laboratories. Rogers House offers an opportunity to the student, a chance to study agriculture as a scientific and economic unit.

The first group of boosters found only the smiley-faced clyster, who had long since come to regard its usage as just that indication that there was indeed no harm within.

Orchestra Shows 7 Years Of Progress

Season To Include Solomon, Francescatti, Serkin, Hess During This Year

By MORRIS K. BLAUSTEIN

On Wednesday evening of this week the Baltimore Symphony orchestra opened its season at the Lyric Theatre. The program was highlighted with a richly-interpreted performance of the Brahms’ First Symphony and, with Rudolf Serkin as guest piano soloist, the romantic Concerto in A minor by Robert Schumann. The local musical season is thus underway.

But this is more than just the beginning of a new season for the orchestra. This is, in the words of Conductor Reginald Stewart, the “beginning of a new era, which will see music in Baltimore going on to greater and greater triumphs.” Mr. Stewart was referring to the new organization of the orchestra’s Board of Directors, completely revised since last year, and starting off (for the first time in many years) in a completely sound financial condition.

MUSICIANS

The musicians who last year had to play only from concert to concert because funds came in for the season to continue, are thus assured of being able to complete the full program outlined for this winter. This program is extensive, consisting of twelve mid-week concerts, featuring many important soloists; ten Sunday night concerts, popularly priced (tickets sell for as low as twenty-five cents); two outside-out-of-town tours, including a performance in New York’s Carnegie Hall; a series of radio presentations; and Young People’s concerts, performed in the various public high schools of Baltimore.

This schedule is an ambitious one, and represents huge strides forward since the time, seven years ago, when Mr. Stewart took over direction of the orchestra. At that time it was merely a small civic group, playing about six concerts a year. The new conductor, who also is Director of the Peabody Conservatory of Music, has been able to attract outstanding musicians to Baltimore both as members of the permanent group and as guest soloists; and the orchestra is now recognized as being on a par with those of Cleveland, Pittsburgh, San Francisco, and Los Angeles.

Of course, in common with those others, it cannot keep pace with the Philadelphia or Boston Orchestras, both of which have yearly budgets of over a million dollars, several times the budget of the entire musical program for Baltimore City.

Mr. Stewart feels very deeply the value of music as an enriching element in modern life.

He quietly quotes Shakespeare, “Man who hath not music in his soul is fit for treasons, stratagems, and plots,” and adds that especially in modern times, music is indispensable as an ordering influence in the spiritual development of individual men and women.

BEGINNINGS

The beginnings of orchestra are in the ancient Greek theater, in which the “chorus” (dancers and vocalists) occupied an allotted space between the players and the audience. This space was called the “orchestra,” and would correspond to the orchestra pit in the modern theater.

Early in the 19th century it became customary to refer to the group of musicians who occupied this space, rather than to the space itself, as “the orchestra.”

Group music was first used almost exclusively as support for vocal music, and it was not until the time of Bach and Haydn (17th century) that composers began writing for instruments alone.

Symphony Moves Into
 Firmer Position Among
 Nation's Best Groups

The same number as are included in other orchestras described above as similar musical ranks. As the musical interpreter for the Baltimore Orchestra, Mr. Hew- \n art is well qualified. He came to Baltimore from Canada, where he had been permanent conductor of the Toronto Symphony Orchestra for many years. He is an accomplished musician, being, in addition to an outstanding conductor, a recognized piano soloist, an acknowledged fine piano teacher, and a performer of almost every instrument in the orchestra. He has, upon occasion, acted as guest conductor for many of the world's finest orchestras, including the NBC New York Philharmonic, and the London Symphony. Other conductors say that he has an "ear like a modern microphone." and a rich sense of value in his inter-

pretations of the great work of music.

Mr. Stewart believes that it is very important for young people to have contact with the orchest-
a and, through it, with music generally. He envisions the day when there will be a program of concerts for high school and college people, followed up by small groups of young people meeting at each other's homes with members of the orchestra acting as guest speakers and performers. Of course, he hastens to add, such a program will have to be delayed until additional funds can be made available, or will be en-
dowed, for that purpose.

In the meantime it is reasonable to expect that Hopkins students will derive much pleasure from both the Sunday-evening concerts which feature "popular" classics, and from the more so-
phisticated type of program arranged for the mid-week concert series.

SOLIISTS

This Wednesday night series will give listeners opportunity to hear many renowned solists: Rudolf Serkin has already performed. Myra Hess, probably the finest woman pianist in the world, will play with the orchestra on January 11. Her consistent wartime service of solo concerts in the London air-raid shelters has been followed by a series of brilliant post-war tours in Europe and America. January 25 will find Zino Francescatti playing the magnificent Paganini Violin Concerto.

THE BALTIMORE SYMPHONY ORCHESTRA—"Although not as strong as the Philadelphia and Boston orchestras, both of which have yearly budgets ... several times the size of the Baltimore group, the Symphony is now being recognized as a par with those of Cleveland, Pittsburgh, San Francisco, and Los Angeles." Now-on a firm financial basis, the Baltimore Symphony should present one of the most attractively planned seasons in its career this year.

MARTIAL SINGER

Will be a featured performer during one of the Symphony's Wednesday night productions later this year.

Number One in D-major. He owns and plays the "Hart" Stradivarius violin, dated 1727, and considered one of the finest instruments of its kind anywhere. Other solists during the season include Conordinated, Elzina Farwell, Soloman, and Spirakovsky. Each of those has previously performed in Balt-

more with outstanding success. Soloman as recently as last week, when he gave a Peabody Hall au-
dience with a thrilling interpretation of an all-Chopin program.

One would look far to find a more attractively planned musical season.

This is not another year in which the Baltimore Symphony Orchestra "needs" the support of concert attendance. But financial affairs are in good order. Rather, this is the year in which the peo-

ple of Baltimore will begin to feel the "pay-off" of many years of concentrated effort in building up the orchestra to its presently recog-
nized high position among orchestral groups in this country. Balt-

moreans can attend its concerts now, not out of duty or civic spirit, but out of a desire to en-
joy fine music and, through it, to find an additional measure of satisfaction and enrichment for their personal lives.
One penny To Be Added To Senior Treasury

One penny will soon be added to the senior treasury, president of the senior class Langstaff has reported.

This statement referred to the fact that the junior class will be charged one penny next year. The senior class will also be charged one penny as a $4,000 bond will be issued to meet the debt the junior class has contributed towards the debt. The senior class will also be required to pay a $4,000 bond as the junior class has already contributed towards the debt. The senior class will also be required to pay a $4,000 bond as the junior class has already contributed towards the debt.

The Winant Volunteers

The Winant Volunteers, Tuesday noon in the Sherwood Room of Levering Hall.

Barn Casting Completed

(Continued From Page 1)

All seniors interested in playing on any of these groups should give their names to one of these three. The winning of Class Day is only part of the extensive program, including a dance, a stag party, and special features, which was presented to the senior class at its meeting last Friday in Merriweather 111.

Gibson Makes Appointments

Student council president Hayes Gibson has assigned members of the council to serve on its committees.

They are Assembly, Scotty Dougherty and Matt Lee; Publicity, Dick Nussbaum and Hy Manweil; Traffic, Carl Mikovitch, Bill Trumbull and Ralph Tandowsky; Drama, George Becker, and a group to investigate freshman housing, Biss Store, Gordon Gatchell and Jack Dower.

ASCE Gives Schedule

On November 8 the Civil Engineers will view a movie, "Our Town Builds an Airport," depicting all processes from conception to completion. On November 10 there will be a conducted tour of Friendship Airport with emphasis on drainage and terminal building construction.

The ASCE is sponsoring a conference by J. M. Yardley, vice president of the Arabian American Oil Company, for the entire Engineers Club November 19.

The 22nd there will be a talk on the development of the water wheel by Carroll P. Member of the Pennsylvania Water and Power Company and on the 28th a movie entitled "Earth, Moon, and Sun" showing construction equipment and their varied uses.

Activities Contacted For Hullabaloo Space

Furnishing, as well as extracurricular organizations on the campus, will be notified by the Hullabaloo, for space in the publication and the charge which must be made to each club.

Bill Beggs, Business Manager, reported that the number of books already ordered is fifteen.

**The Gentleman Athlete**

By PHIL SPARIAN

Unbeaten and untied, the powerful A's again displayed their second-half power last Wednesday, as they overpowered the Sig Ep's, 24-0. By Forbush was the margin of difference. Entering the game in the second half with the score at 0-0, Forbush threw three touchdown passes and caught another. Bill Geary's defensive play was on the sensational side, and he frustrated a great many potentials Sig Ep pass receivers.

The battling Betas were tumbled from the undefeated ranks by the ATOs, in a rough and tumble affair. Duty in the game Dikey White played hot potato with a Dave Thomas pass, but fell with it into the end zone for an ATO TD. This was the only score until late in the fourth quarter when Dave Thomas intercepted a Beta pass and ran it back for another TD. Rudy Danglemajer, former all-state New Jersey pigskin star, and Neil Polhaus kept the game in the second half with the score at 0-0, Forbush threw the second score. Bill Beggs and John Benson were the Phi Gam passing stars, but Bob Brown and, De Blaine checked the pass receivers in the game.

The upset of the week was the 6-0 victory Phi Sig scored over KA. Howie Kelly and his rugged KA's fought uphill to overcome them.

The Phi EPS defeated AEPi, 12-6 and retained their grip on first place. Stan Beckman and Newt Margolis scored the two Phi TD touchdowns, and Charlie Saliger tallied for AEPi.

Bullets Outrun Jays, 56-6

End Serves Cause Woe

By WALT HERMAN

A band of home-talented Bulletts from Gettysburg College invaded Homewood Field last Saturday afternoon and handed an outclassed Hopkins alarm a 56-6 landslide.

Combining a strong ground offensive with the accurate passing of quarterback Bob Foster, the visitors from the Battlefield country rolled to four touchdowns in each half while limiting a game Jay team to a lone second-period score.

The first quarter saw the Bulletts, led by a fumble and two pass interceptions, put Hopkins up 14-0 at the end of the period. Hopkins had a second-period score, but the Bulletts tacked on 21 points behind and the Jays never recovered.

Ron Pitekas made good on all eight of his ground attempts, adding more woe to the Hopkins cause. Oddly enough, eight opponents in 1948 could make only one of seven conversions. This year's record stands at thirteen for fourteen.

Despite the overwhelming defeat, the Jays had one consolation. According to Gettysburg Coach Harry Beam, Hopkins managed to roll up more yards than any of the four previous teams the Bulletts had beaten. On the other hand, the 34 points total was the highest recorded against a Hopkins eleven for over a decade.

One of the few pleasing aspects of the contest was the passing of Bob Foster. Foster completed 14 of 21 passes for a total gain of 146 yards. Three Jay teames were credited with five completions apiece.

George Mitchell gained 58 yards, Jim Adams 54 yards, and Roger Brown 41.

While Gettysburg handed the Jays a crushing defeat, the Homewood team played the game as a good ordinary player should, paying attention to the score and running through each series of downs as if the next play might bring victory. They simply didn't have the speed to combat G-Burg.

Frosh Eleven To Open With Swarthmore JV's.

By BILL TAYSON

It's a big day for the freshman football team. This afternoon they close their season with a game against the Swarthmore JV's.

The Frosh eleven is considered a team that is strong enough to challenge any other team in the country. Their record for the year is 5-0.

Individual defensive work was emphasized in last week's workouts, and the team is in top physical condition.

The starting defensive line is in its best shape of the season.

Off on one of the many end sweeps which went together to make up Gettysburg's overwhelming win over Hopkins last Saturday goes TONY CERVINO (No. 11).
Homewood, Baltimore, November 4, 1949

NEWS-LETTER

FRESHMEN

'53 Soccer Eleven Going Great Guns

The frosh booters are setting a sizzling pace, and barring any serious injuries, they should be able to maintain it.

Led by their newly elected captain—Fred Barrie—the team whipped Park School, 11 to 0, in a practice session. John Behdjou led the scoring with the amazing total of 7 goals. Emil Budnitz, Bill Bost, Al Stoecker, and Moe Mosquera made one goal each to account for the rest of the scoring.

In their opening regular game with Glen Burnie High, a squad previously undefeated in 9 starts, the Froshmen walked away with another shut-out; this time the final tally was Hopkins 4, Glen Burnie 0. The scoring honors in this fracas were divided between Budnitz, Behdjou, and McDowell.

Coach George Wackenhut's only comment about his frosh squad is a grinning "They're good."

STARRING IN "MR. SOFT TOUCH"

A COSTUMED PLAY

(Continued from Page 12)

8. Scheer, Hopkins 26:43
10. Prizew, Gallaudet 27:39
11. MacCubbin, Hopkins 28:24
12. Fortmoss, Hopkins 28:45

The Jay froshmen squad, bolstered by Bill Maginnis, who is back among the first string ranks after a hernia injury, will take on Baltimore Poly next Wednesday.

The team lost a very close one to the Delaware Frosh without the assistance of Maginnis and at full strength the team shouldn't have much trouble with the Catonsville quintet.

**Jays vs Garnet**

**Birds Bound To Bounce Back**

Hopkins Favored To Lick “Swarthmore Jinx”

In 33rd Renewal Of Series; Foster, Lay, Kalus Handle Offensive Load

Clutching a rabbit's foot, avoiding ladders, and flinging salt over his left shoulder, Howdy Myers leads his Hopkins football squad to Swarthmore, Pa., tomorrow to renew a traditional series with the Garnet. Kickoff time is 2 o'clock.

Just as traditional as the Hopkins-Swarthmore rivalry itself is the fact that the Garnet always wins. Out of 32 games played between the two adversaries of de-emphasis, Swarthmore has come out on top 24 times, while twice they have been deadlocked. For this reason, Myers considers it possible that Jay's chances even though comparative scores seem to favor JHU by a couple of touchdowns.

**Future Foes**

**Terrors Head For M-D Title**

Hopkins won't the only football club to wish it had stood in bed last Saturday afternoon; Swarthmore, tomorrow's Jay opponent, took a 45-5 wallop ing from Franklin and Marshall.

Dickinson, whom Hopkins will meet in their final tussle before the traditional Western Maryland outing, won his fourth straight game, beating a good Allegheny eleven, 21 to 18.

Western Maryland rang up win No. 5 in six tries over Hampden-Sydney, 25-6.

**CC Team Scores**

**Grime’s 1st Win**

The Hopkins cross-country team made good back from a string of three consecutive defeats to rout Catholic University and Gauallet in the past week.

Team captain Earl Grime failed to set any new course record, but he did cross the finish line far in front of all competitors, extending his unbeaten record of firsts to five this fall.

Grime covered the 6-mile course against Catholic U. in 29:13.6 with Al Doyle of Hopkins taking third in 29:24. Following closely to clinch the 29-29 win were Earl Wingerter, Tom Mac-Cubbin and Len Sheer in 4th, 5th, and 6th places respectively.

Tuesday saw the Jays in their second victory, trouncing Gauilet 25-20. Despite the rain, Grime ran clocked only 1:12 off the school record in the exceptional time of 23:10 for the Homewood (4-mile course).

Tomorrow will see the Varsity harriers running a strong outfit from Swarthmore, boasting three from Swarthmore, boasting three.

**Dumb Plays Cost Game At Drexel**

Hopkins’ soccer team played its best game of the year Wednesday afternoon, but still lost to Washington College, 2-1, at Chestertown.

The Shoremen won on a pair of goals in the last three minutes.

Drexel is the latest soccer team to improve its record at the expense of the Hopkins varsity eleven. They turned back the locals 4-2 last Wednesday at Philadelphia.

The Jays are still searching for their first victory, having been denied that goal on four straight occasions.

“Look pretty good against Drexel,” remarked Coach Wackenhut. “They hustled, but missed scoring opportunities.” He wasn’t kidding about missing scoring chances. On two plays especially did they look like a high school team.

On one occasion a Hopkins man had the ball three yards in front of the goal. He kicked it over the goal.

Another time Hopkins seemed to have a sure tally, but the man hit the ball in his hand and the score was nullified.

Next on the hoodie’s agenda is a Mason-Dixon conference game with the much-improved Towson Teachers tomorrow at Towson.
