Dear Mr. Gilman

Excuse my delay in answering your letter. I only waited until the Secretary & some of the Committee should have the opportunity of writing (?) with me in thanking you for the interest you so kindly report (?) in the "Women's Medical Education", & assuring (?) you how very much encouraged we feel in knowing that we have your support.

Cordially yours

for sick women. There can be no little doubt that there is not a sufficient number of women capable to be educated so as to be able to care for sick women, and may wish to be licensed by the Government.

We have devoted many hours further on this subject, and the plans we have received from the New Haven Medical School, and the methods of the medical men, are such that we feel very much impressed that the opportunity of learning such methods is now presented, and the women will have the opportunity of learning such methods.

There is now a general interest in our movement, and we believe that in a few years it may not be long, to ask you to consider this offer carefully and kindly.
