Hilgard Ring

Gift of J. H. M.

Prof. Ira Remsen
Washington, Dec 9, 1891
Johns Hopkins University Baltimore

My dear Sir:

I sent you at Mrs. Hilgard's request the other day a ring formerly belonging to Prof. Julius E. Hilgard, which he desired should be put into your hands for some purpose which Mrs. Hilgard has not fully explained to me. It is composed of some of the iridium alloy of which the great standard meter bar ^{at Paris} was cast, and was greatly valued by Prof. H. Perhaps he told you what he wished done with it, if not, Mrs. Hilgard will probably be able to inform you

Yours very truly

W. H. Dall
